

School Annual Education Report (AER) Cover Letter

April 9, 2019

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2017-18 educational progress for North Elementary. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Heather Hoisington for assistance.

The AER is available for you to review electronically by visiting the following web site <https://goo.gl/J3zuhi>, or you may review a copy in the main office at your child's school.

For the 2017-2018 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has three or more underperforming student subgroups. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given.

* Note TSI and ATS definitions were changed for the 2018-19 school year per federal requirements. The new definitions are:

TSI – The school has at least one subgroup performing in the bottom 25% within each applicable accountability index component.

ATS – The school has met the criteria for TSI identification and has at least one subgroup performing at the same level as a CSI school.

Our school was identified as an Additional Targeted Support School.

As the M-STEP cut scores changed, our students had difficulty achieving academic success in all content areas. North Elementary School has a very unique population. We have the highest percentage of English Learners (ELs) in the Lansing School District, at 60%. Our students represent nearly 50 different countries, and speak nearly 30 different languages. Our school is very diverse. Along with our EL and

general education population, we also have Hearing Impaired (HI), Visually Impaired (VI), and Physically and Otherwise Health Impaired (POHI) students. Each child at North is considered an individual learner, with our goal being to address the needs of each student so that they are successful in all aspects of their educational and social lives.

In 2018, in the area of English Language Arts, our 3rd grade students performed much better than our 4th, 5th, and 6th grade students on the M-STEP. Using school district data, our focus is going to be on Reading Comprehension for all grade levels. North will continue to implement mandatory reading intervention blocks for all students. All teachers have been trained in the Daily 5 and CAFÉ reading programs. Also, in the area of Math, our 3rd grade students outperformed our 4th, 5th, and 6th grade students by nearly 10%. We will implement mandatory math intervention blocks at every grade level, for every student. We are seeing gains being made by our students due to these intensive interventions.

State law requires that we also report additional information.

1. Currently, North Elementary is a kindergarten through sixth grade school. Many of our students come from our attendance area, in South Lansing. We also receive English Learners living south of I-496, as we provide the needed ESL services for these students.
2. North Elementary continues to focus on three main goals in our School Improvement Plan. These goals include increasing student proficiency in the areas of English Language Arts, Math, and behavior. The school improvement process at North is ongoing and involves professional development for staff on best practices to provide the optimum educational experience for our students. The staff, students, parents, and community members all play an integral part in helping North Elementary to continue making progress in meeting all of its goals.
3. North Elementary School is a safe and caring learning community committed to developing students' social, emotional, intellectual, physical and ethical/moral well-being. Administrators, teachers, support staff, students, parents, and community members strongly believe that caring relationships within our global community convey compassion and respect. High expectations for academic achievement and behavior, along with an understanding of our school's diversity provide a sense of belonging that make young lives meaningful and significant. Our differences are our strengths and we praise diversity for its potential to enrich teaching and learning experiences within the North School family.
4. A copy of the core curriculum, in addition to the Common Core State Standards (CCSS), can be accessed through the Lansing School District web page at www.lansingschools.net. The teaching staff at North Elementary uses

the core curriculum and content standards, along with best practices for teaching and learning, to benefit each and every student.

5. Local tests such as the Developmental Reading Assessment 2 (DRA) and AimsWEB are administered at multiple grade levels, and at scheduled intervals, during the school year. The data provided by these assessments is taken into account while planning lessons and differentiating instruction for students, and also while preparing our school improvement plan.

6. IDENTIFY THE NUMBER AND PERCENT OF STUDENTS REPRESENTED BY PARENTS AT PARENT-TEACHER CONFERENCES

Year	Number of Families Represented	Percentage of Families in Attendance
2017-2018	536/591	91%
2018-2019	190/465	41%

With the reconfiguration of the school, Henry H. North Elementary School has a new leadership team for the 2018-2019 school year. Also, we will be in year three of being awarded the School Improvement Grant (SIG V) which brings much needed resources to our school. This grant allows us to increase the number of teachers working with our students, and it helps us implement new programs that will increase the academic achievement of our students. The school will work with the State of Michigan to increase student proficiency in reading and math scores. Improvement will be made possible through the collaborative efforts and dedication of all involved in the education of our students.

Sincerely,

Heather Hoisington
