

Sheridan Road

Sheridan Road  
STEM prepares and  
inspires students to  
meet the challenges  
of a global society.

Students enjoy a  
hands-on, minds-on  
approach to learning  
with a focus on  
Science, Technology,  
Engineering and  
Math.

Students are engaged  
and challenged daily  
in a technology rich  
learning environment  
that emphasizes  
project based  
learning, creative  
problem solving and  
collaboration.

Grades: 4-6

Lansing<sup>®</sup>  
School District

# WHAT IS STEM?

STEM helps students understand how the academic principles of science, technology, engineering and mathematics impact their world and prepares them for the workforce of tomorrow.

## What Makes Sheridan Road Special?

- One to one technology access makes computers and iPads available to students throughout the school day.
- STEM learning labs make technology and equipment available for hands-on learning experiences which deepen student understanding.
- Engaging and innovative learning experiences happen both in-school and in the field to broaden student involvement.
- Using the Engineering Design Process to take on robotic and engineering challenges helps students connect their education to real world experiences.
