

Cumberland

John Dewey, an early leader in educational reform, often expressed that what the best and wisest parents want for their own child, the community must want for all its children.

What do you want for YOUR child?

At Lansing's Cumberland Elementary School we ask ourselves that question every day. It has guided us in creating a school that reflects the hopes that all parents have for their children.

Grades: PreK-3

What do you want for your child?

- Cumberland ENGAGES the youngest student. Cumberland is not only a K-3 building, but offers the award-winning Great Start Readiness Program - a free, full day preschool program for 4 year olds.
- Cumberland EXCELS in instruction. We collaborate on best practices, utilize assistive technologies, and commit to professional development that broadens our teaching skills.
- Cumberland EMBRACES diversity. We teach consideration and show our children how to be more accepting of one another as they grow to be neighbors in a multi-cultural society.
- Cumberland ENCOURAGES the potential in each child. We show our students how to realize their possibilities. We coach for character and require every student to be safe, respectful, and responsible.
- Cumberland EXPECTS students to succeed. Children live up to what we believe them capable of doing and there are few schools which have solicited as many community partnerships to support our kids.

Cumberland Partners with the Best!
