

Cavanaugh

Students at Cavanaugh STEAM Magnet School are immersed in a hands-on, project-based learning environment that embraces today's high-tech tools and the best of traditional learning strategies.

Students are constantly challenged to inquire and explore through projects that encourage true innovation.

School District

# WHAT IS STEAM?

STEAM is an educational approach to learning that uses **science, technology, engineering, the arts and mathematics** as access points for guiding student inquiry, dialogue, and critical thinking.

## What Makes Cavanaugh Special?

- State-of-the-art technology in STEAM Learning Lab to provide a flexible environment that facilitates project based learning.
- Art integration across all grade levels to enhance student learning of core curriculum.
- Discovery Education's video streaming fully integrates video, text, audio and writing to deepen student understanding.
- Expanded STEAM-themed efforts in recycling, and energy to create students who are mindful of their impact on other living things.
- A variety of extracurricular activities including robotics, engineering, gardening and healthy kids clubs are offered to enrich the student experience.
- Every student in grades K- 3rd have access to iPads to enhance their learning.
