

Gardner International Magnet

Engaging students with an instructional model that is universally accessible for a broad range of student abilities and learning styles.

Gardner International Magnet has an immersive international studies program based on Global Education, utilizes Project-Based Learning, and is aligned with the 17 Global Goals for Sustainable Development and S.T.E.A.M.

Grades: K-8

What is Global Education?

Global Education is an approach to learning concepts and skills needed to succeed in a world that is increasingly interconnected and diverse. Global Education is integrated throughout the curriculum and taught within the context of project-based inquiries. Within Global Education, there is an emphasis on understanding the perspectives of others and examining issues of individuals, the local community, the nation, and the world community.

What Makes Gardner International Special?

- Curriculum meets and supports the development of both the individual and the whole.
- The content for a grade level is gauged for the cognitive capacities of that specific age.
- Teachers focus on students' strengths and gifts.
- Teachers look at traditionally underrepresented groups for work in STEAM academic coursework and extra-curricular activities and tools for reaching disengaged learners.
- Content resources: Project-based Learning, One World
- Nationally recognized as a 2020 Magnet Schools of America Merit School of Excellence

Project-Based Learning

Project-Based Learning (PBL) is a dynamic instructional approach in which students gain knowledge and skills by working for an extended period of time. PBL allows for students to participate in authentic and engaging work that focuses on a complex question, problem, or challenge. Project-Based Learning is collaborative and powerful!

Gardner International Magnet is:

independent and inclusive. It upholds the principles of freedom in education and engages independent administration locally, continentally and internationally.
