

**Sam Sinicropi**  
Superintendent

September 8, 2020

Dear Lansing School District Families,

**Superintendent's  
Executive Team**

Welcome back!

Delsa Chapman, Ed.D.  
**Deputy Superintendent**

The Lansing School District is starting screen to screen learning today. It is my hope that all students have a successful first marking period as we begin this new adventure in learning.

Camela Diaz, Ed.D.  
**Associate Superintendent  
for Student Learning**

On August 6, 2020 I presented the Return to Learning Plan to the Board of Education. At the same time, it was announced that no extracurricular activities would take place through the first marking period that ends on November 6, 2020.

Jessica Benavides  
**Executive Director for  
School Improvement**

Last week Governor Whitmer issued Executive Order 2020-176 which allowed for some sport activity. She also stated the following— "Sports organizers should follow the guidance of the Department of Health and Human Services regarding whether and how a sport can be played safely."

Cordelia Black  
**Executive Director  
for School Culture**

After contacting the Health and Human Services Department for the State of Michigan and the Ingham County Health Department, the Lansing School District will continue to follow the advice of health professionals and postpone extra-curricular activities at least through November 6, 2020.

Jon Laing  
**Chief Financial Officer**

This action emphasizes the health and safety of students, families and staff as our first priority.

Suzy Corbin  
**Executive Director of  
Human Resources**

Sincerely,

Sam Sinicropi  
Superintendent

Sergio Keck  
**Executive Director of  
Special Populations and  
Community Outreach**
