Grand Re-Opening Ceremony

Thank You for Believing in Us & Supporting Us

We have successfully transitioned to become Attwood New Tech Magnet School. We use the New Tech Network recommended instructional model called Project Based Learning (PBL). PBL is a student-centered approach where students use 21st century skills as they explore and solve real-world problems and challenges with their peers. Our one-to-one technology (Chromebooks) enables our students to achieve some of the critical tasks they will need to perform and publish their work to a real-world audience. Your students will learn all required core subjects as our Attwood New Tech teachers integrate science, math, technology, and engineering (STEM) into each content area. We are proud to offer unique experiences for students!

STEM PLANNERS

Beginning Monday, September 17th students will begin bringing home a planner daily as a primary communication tool between teacher, parent and student. Parents, support your child’s teacher with this mode of communication. STUDENTS ARE REQUIRED TO RETURN THEIR PLANNERS EACH DAY.

Parents, if your child is in need of tote to keep your child’s planner in good shape, please let us know.

The Attwood New Tech Times
September 10, 2018

Calling ALL parents & caregivers! Please come out on Monday, September 24th at 10:00 a.m. to get information on Attwood New Tech School Improvement Goals and ALL of the new opportunities with our community and magnet partners:

- Read 180 Program
- Active Student Involvement with the Community
- One-to-One Technology Devices (Chromebooks)
- Robotic-Based Education Experiences
  - Girls in Engineering Club
  - LEGO Robotics Camp
- Reaching Higher - Before and After School Program
- Communities in Schools Program

Refreshments will be served!

AIMSWeb Benchmark Testing

This week we will begin testing your child to measure their strengths and weaknesses in the areas of math and reading with our AIMSWeb Benchmark Assessment. It is important that you encourage your child to do their very best while testing. The results of this test will inform us of Attwood New Tech students need additional support in reading and math AND which students need to be challenged more in the areas of reading in math.
We are off to a great year! Change is a tough process and we are all pushing through. Our biggest change this year is the transformation of our teaching and learning. Teachers facilitate learning as our students engage in:

- Written and Oral Communication
- Collaboration
- Critical Thinking
- Creating
- Agency
- Problem Solving
- Empowerment
- Confidence
- Empathy
- Global Citizenship

I look forward to seeing all of you later this month on Monday, September 24th at our first, monthly, Coffee with the Principal to share more on the new opportunities and expectations at Attwood New Tech.
