*Approved by the Board: August 2020*
Our children are our most precious natural resource. Their experiences in school can shape their lives forever. The Lansing School District is committed to a mission of making sure those experiences are positive and nurturing. However, from time to time, children explore the “boundaries” of behavior and it’s necessary for us to provide guidance when that happens. Not only for ensuring a safe environment for others, but for helping each student understand the acceptable rules of behavior in school, the workplace, and in society in general.

The Lansing School District’s Student Handbook helps students, staff, and families better understand our expectations for behavior and the consequences when those expectations are stretched or broken. We take great pride in providing our staff with unique training in the area of Culturally Responsive Positive Behavior Intervention Support – better known as CRPBIS – so that they are able to diffuse potential problems that would interrupt our students’ learning. We have created an Office of School Culture responsible for ensuring that students are treated fairly and have due process when the consequences merit a suspension or expulsion. In each of our schools we have Student Support Specialists to help implement positive behavior initiatives and rewards in conjunction with the school’s teachers and principal. We also partner with the OK2SAY hot-line to make sure students have a voice in situations where they feel anonymity would be a better way to share their thoughts.

Our district has reduced suspensions over the last five years. We believe that in order for students to be successful, graduate from school, and continue with their career and college futures, they must be in school whether school is face-to-face or screen-to-screen. We monitor closely the behavioral infractions in each school and provide resources when needed. We want to make sure that every classroom is a positive environment and that every school is a great place to learn. To do that, we need everyone to support our mission - students, staff, and families. Our community’s future depends on being a safe and nurturing place to live, work and learn.

**Strategic Plan Summary**
The Board of Education takes very seriously its responsibility to provide a safe and secure environment for the students and staff entrusted to its care. A respectful atmosphere is critical to the education process. The Board of Education adopted this Student Handbook to provide the standards and structure necessary to foster that safe educational environment in which students can learn as they mature mentally, physically, emotionally and socially. The following principles were used in developing the Student Handbook:

1. The Handbook provides the order necessary for learning. Lack of order interferes with the focus on education. However, the Handbook should not restrict creativity or the excitement of learning.

2. The Handbook protects student and parent rights while also acknowledging their responsibilities to be good citizens.

3. The Handbook includes guidelines for addressing problem behaviors (see pages 19-22) before they become severe. The Code does not just focus on resolving extreme student misconduct problems.

4. The process is built on mutual teacher-principal-student-parent respect. The process does not compromise individual dignity.

5. Parents are responsible for the conduct of their students and must be involved in solving student problems. Students who have reached the age of 18 may elect to be responsible for their own conduct.

6. All members of the school community, including students, were involved in establishing the Handbook.

7. This Handbook considers the importance of restorative justice principles and practices and Positive Behavior Intervention Supports as a framework for addressing negative behaviors and promoting positive school culture and climate.

This Handbook complies with all relevant Michigan Department of Education policies as well as state and federal statutes regarding the disciplining of general education/special education students. The Handbook does not diminish the due process rights under federal or state law of students who have been determined to be eligible for special education programs and services or reasonable accommodation for their disabilities.

The Superintendent of Schools shall have ultimate responsibility for administering this Handbook in a consistent, fair and reasonable manner throughout the Lansing School District.

Throughout this Handbook, the Term:
- “Parent” shall be interpreted to include “parent or legal guardian.”
- “Principal” shall be interpreted to include “the principal or designee.”
- “Teacher” shall be interpreted to include “teacher, school substitute, or long-term substitute.”

K-12 Students
In order to maintain a positive school climate for learning, a Uniform Discipline Code with Levels of Misconduct and Disciplinary Action has been developed. The principal shall notify parent(s)/guardian(s) of any suspension before it occurs. The student shall be assigned homework during the period of suspension for completion and submission to the classroom teacher on the day of readmission. Note: the district reserves the right to recommend more severe discipline based on the nature of the violation.

It is necessary for students and Parent(s)/Guardian(s) to understand that deviations from expected behavior may result in disciplinary action. Disciplinary action in Levels I through V shall occur in response to student misbehavior as the administrator recommends. The Principal (or designee) is responsible for recommending all disciplinary action, including In-school and Out-of-school/program Suspension. In each situation, the question of whether or not an act of misconduct occurred that warrants disciplinary action shall be determined administratively, by a school administrator or a hearing officer.
Expectations

CITIZENSHIP

The Lansing School District Board of Education expects students to behave in a manner in keeping with their levels of development, maturity and demonstrated capabilities with a proper regard for the rights and welfare of other students, school staff, volunteers and contractors.

SCHOOL CITIZENSHIP RULES

This Handbook seeks to ensure that the following citizenship rules are followed:

1. Students will attend school every day, be on time, and prepared to learn,

2. Students will demonstrate common courtesy, friendliness, and respect to other students and adults,

3. Students will act in a manner that reflects pride in themselves, their family, and in the school,

4. Students will respect the ideas, beliefs, and cultures of other people with an open mind and polite attention,

5. Students will use appropriate and respectful language or gestures when addressing other students and adults,

6. Students will be cooperative, attentive and supportive in class and in the halls,

7. Students will help to maintain a school environment that is safe, friendly and productive,

8. Students will identify themselves to school personnel upon request.
EQUAL EDUCATION OPPORTUNITY

It is the policy of this District to provide an equal education opportunity for all students.

PARENT INVOLVEMENT

The Parent Involvement page is created by parents for parents and guardians of Lansing School District students. As a parent or guardian, your involvement in your child’s education can:

1. help your child achieve a high-quality education,
2. increase your satisfaction with the school, and
3. increase teacher morale.

A positive attitude by families and teachers contribute to your child’s academic success!

STUDENT AND PARENT RIGHTS AND RESPONSIBILITIES

1. The rules and procedures of the school are designed to allow each student to obtain a safe, orderly, and appropriate education. Students can expect their rights to freedom of expression and association and to fair treatment as long as they respect those rights for their fellow students and the staff. Students will be expected to follow teachers’ directions and to obey all school rules. Disciplinary procedures are designed to ensure due process (a fair hearing) before a student is removed because of his/her behavior.

2. Parents have the right to know how their child is succeeding in school and will be provided information on a regular basis and as needed, when concerns arise. Many times it will be the student’s responsibility to deliver that information. If necessary, the mail or hand delivery may be used to ensure contact. Parents are encouraged to build a two-way link with their child’s teachers and support staff by informing the staff of suggestions or concerns that may help their child better accomplish his/her educational goals.
3. Students must arrive at school on time, prepared to learn and participate in the educational program. If, for some reason, this is not possible, the student should seek help from the principal, teacher, or secretary of the school community.
   i. Adult students (age eighteen [18] or older) must follow all school rules.
   ii. If residing at home, adult students should include their parents in their educational program.

**RIGHTS**

1. To be educated in a healthy and safe environment,

2. To participate in the educational process in a climate that is free from fear, harassment, intimidation, disruption and violence,

3. To expect that school rules will be enforced in a consistent, fair and reasonable manner,

4. To have access to review the student’s cumulative records. (Students under 18 may participate in such a conference; those 18 and above may request a conference without their parents being present.),

5. To expect that school staff will investigate reports of any infringement upon student and parent rights and respond in a timely manner,

6. To make up all work missed due to an absence or suspension,

7. To request an educational conference with school personnel,

8. To present complaints, incidents, problems, grievances, or petitions to the principal and to receive an initial response within three (3) school days after receipt of same by the principal,

9. To receive accommodations for health issues and concerns, especially for students with chronic health conditions (i.e. medications, wellness checks, and interventions).

It is the policy of the Board of Education to maintain an educational environment that is free from all forms of unlawful harassment, including sexual harassment. The District does not tolerate sexual harassment or other forms of unlawful harassment. This commitment applies to all School District operations, academic
and extra-curricular programs, and activities. All students, administrators, teachers, staff and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of unlawful harassment. This policy applies to unlawful conduct that occurs during an academic or extra-curricular activity sponsored by the Board on school property, a school bus or at another location if such conduct occurs during an event or activity sponsored by the Board.

Any individual wishing to report a violation of the harassment policy should contact: Anti-Harassment Compliance Officers (listed at left).

The Lansing School District when appropriate will provide additional support to students reported to be victims of sexual harassment or sexual assault. This support includes (but is not limited to) no-contact orders or changes in student schedules to protect the student. Additionally, the district will offer counseling support, supplemental academic support and resources to students who have been subjected to or who have engaged in sexual-based harassment and/or to the harasser.

Employees who fail to report suspected harassment to their principal, supervisor, or the District’s Compliance Officers will be promptly disciplined. Such discipline may include, if circumstances warrant, suspension or termination of the employee.

Students or employees who retaliate against individuals who report sexual harassment will be promptly disciplined. If circumstances warrant, such discipline may include suspension or expulsion of a student, or suspension or termination of an employee.

**RESPONSIBILITIES**

1. To respect self and others, as well as district and community property,
2. To respect school rules and participate in discipline proceedings when appropriate,
3. To schedule an appointment to review records at a mutually acceptable time,
4. To report any violation of student/parent rights to school staff,
5. To make up work resulting from an absence or suspension,
6. To participate in an educational conference with school personnel,
7. To pursue grievances through established procedures,
8. To adhere to the guidelines regarding when to keep a sick child at home,
9. To provide medication information to the school offices (i.e. the school nurse) including medical documentation of need for accommodations. (It is important that a completed and signed Authorization of Medication at school form for prescription medication or a completed and signed Over the Counter medication form is provided to the school).
10. To provide workable emergency phone numbers and reliable emergency contacts for student emergencies.

**STUDENT WELL-BEING**

1. Student safety is a responsibility of the staff. All staff members are required to be familiar with emergency procedures such as fire, lock down, tornado drills and accident reporting procedures. Should a student be aware of any dangerous situation or accident, s/he must notify any staff person immediately.
2. State law requires that all students must have an emergency medical card completed, signed by a parent or guardian, and filed in the school office. A student may be excluded from school until this requirement has been fulfilled.
3. Students with specific health care needs should deliver a written notice regarding such needs along with proper documentation provided by a physician, to the school office.

**INJURY AND ILLNESS**

1. All injuries must be reported to a teacher or the office. If the injury is minor, the student will be treated and may return to class. If medical attention is required, the office will follow the school’s emergency procedures.
2. A student who becomes ill during the school day should request permission to go to the office. An appropriate adult in the office will determine whether the student should remain in school or go home. No student will be released from school without proper parental permission.

ATTENDANCE POLICY AND REGULATION

The Board of Education believes that attendance is a key factor in student achievement and that any absences from school represent an educational loss to the student. Regular and punctual patterns of attendance shall be expected of each student enrolled in the Lansing School District.

While it is recognized that absence from school is necessary under certain conditions, every effort should be made by students, parents/guardians, teachers and administrators to keep absences and tardies to a minimum.

Student attendance at school is the responsibility of the parent/guardian and student. In order for parents/guardians to fulfill their responsibility, the school must keep them informed of student absences and attendance patterns.

An adequate and comprehensive system of attendance records shall be maintained for each student. Each teacher is responsible for accurate reporting of daily attendance in his/her classroom. The principal shall be accountable for ensuring the accuracy of all attendance records for his/her school.

Absences, even though verified by the parent/guardian, which are excessive and/or interfere with the student’s educational program, will be investigated by school district personnel.

All students shall have the opportunity to make up schoolwork missed due to absences. However, it shall be the student’s responsibility to secure the assignments and return them within the time agreed upon with each teacher.

It is the mission of the Lansing School District Improving Attendance Initiative to advance student achievement by promoting a culture of positive attendance, cultivating mindset change and providing equitable learning opportunities by increasing student attendance.

WE BELIEVE

1. In the identification and reduction of barriers to close equity gaps.
2. In promoting a growth mindset for staff, students and families.
3. In promoting bell to bell attendance as a priority.
4. In the need to actively collaborate with families and community partners.
5. In building and sustaining strong attendance habits early and throughout a student’s career.
6. In culturally responsive practices that support positive attendance.
7. In collecting and using a wide-range of actionable data in order to apply a tiered approach to improving attendance.
8. In the impact that positive staff attendance has on student attendance.
9. In encouraging and celebrating improved attendance.
STUDENT ATTENDANCE AND ABSENCES

Students are expected to arrive at school before school begins each day. The importance of regular attendance is a significant lesson to be learned in school. Learning is taking place each day in class. These learning experiences can never be duplicated. When a student is not in attendance, he/she is missing a valuable portion of his/her education.

A K-12 student is considered absent when they miss the entire class period. A student is tardy when he/she misses up to 15 minutes of a class period. The student is considered Arrived Late (AL) when they arrive after 15 minutes from the start of the class period. Students who leave a class period prior to the scheduled end time and do not return will be considered Left Early (LE).

PROCEDURES FOR GRADES K-6

1. Parents/legal guardians will be responsible for contacting the school office if the student will be absent. Results of that contact will be noted on the official attendance record,

2. School personnel will contact the home if the parent/legal guardian have not called to verify the reason for the student’s absence(s). Results of that contact will be noted on the official attendance record,

3. When students return from an absence, they are to bring a signed note from the parent/legal guardian stating the reason for the absence(s),

4. The school staff will make contact with the parent/legal guardian when the student has accumulated five (5) full day (ten [10] half days) absences,

5. Students who accumulate eight (8) full day (sixteen [16] half days) absences may be referred to the district’s Attendance Specialist,

6. When students exceed ten (10) full day parent excused absences (illness or family request), a signed note from the student’s physician will be required. The statement must include the reason for the absence, the number of days the student will be absent, the dates of the absences and the physician’s signature,

Is My Child’s Absence Excused?

An absence is excused if notification is received by the school within ten (10) school days after the absence and the absence is due to one of the following reasons:

- Parent Excused Illness (up to and including 10 a year) Absences after 10 a year, will not be excused unless accompanied by a medical (physician) excuse
- Funerals
- School Related (suspensions, late bus, administrative reasons, field trips, etc.)
- Legal/Court Appearances
- Incarceration
- Medical (Physician) Excused
- Religious Observations
1. Before a referral is made to the Attendance Specialist, a letter will be sent by the school to notify the parent/legal guardian of the attendance problems.

2. If all of the above efforts fail to correct the attendance problem, the Attendance Specialist will proceed with legal or other appropriate action against the parent.

PROCEDURES FOR GRADES 7-12

An absence is excused if notification is received by the school within ten (10) school days after the absence and the absence is due to one reasons listed on page 12.

1. Parents/legal guardians will be responsible for contacting the school office if the student will be absent. Results of that contact will be noted on the official attendance record,

2. When students exceed ten (10) full day parent-excused absences (illness or family request), a signed note from the student’s physician will be required to excuse further absences. The statement must include the reason for the absence, the number of days the student will be absent, the dates of the absences and the physician’s signature,

3. The teacher will notify the school administrator or designee when the student has accumulated ten (10) absences (excused or unexcused) or when unusual patterns of absences occur in a class period during a semester, the school will notify the parent (by mail, e-mail, phone, or in person),

4. If all of the above efforts fail to correct the attendance problem and the student is under the age of 18, the Attendance Specialist may proceed with legal or other appropriate action against the student and the parent. If the student is between the ages of 16 and 18, parents may drop the student from school by signing the Consent to Withdraw From School form in the presence of a school administrator. This form is available at each of the high schools.
HOMEBOUND SERVICES

If your child has been diagnosed by his/her doctor with a medical condition preventing them from attending school (5 or more days), you may qualify for homebound services.

What Are Homebound Services?
The Lansing School District offers homebound services to those students who are receiving medical treatment that prevents regular school attendance. Through the use of assignments, textbooks, and/or online resources provided by a school’s classroom, certified homebound teachers provide instructional assistance in the student’s home.

Eligibility Requirements:
In order to be eligible for homebound services, your child must:
• Have a medical diagnosis that prevents full time attendance
• Have a physician referral form from a qualifying medical professional (M.D., D.O. or a Certified Physician’s Assistant)
• Have medical absences exceeding five (5) consecutive days
• Be enrolled in the Lansing School District

The Power Of Collaboration
Our homebound teachers collaborate with your child’s classroom teacher in order to deliver the needed materials and assignments to your student. Your child’s classroom teacher will remain the teacher of record for your child.

Homebound Teachers Will:
• Schedule services with the parent
• Provide instructional support by delivering assignments, textbooks, and teacher resources to the homebound student
• Return completed work to the school
• Serve as a liaison between your family and your child’s school

How Do I Enroll My Child?
1. Request and submit the student referral form to your school. A school counselor or administrator will then complete the school referral form, and submit both to the Office of School Culture (OSC).
2. The OSC will then obtain the physicians referral form, and submit all three forms to the Department of Assessment and Pupil Accounting (DAPA) for final approval. You will be notified within a week of submission if/when homebound services will be provided.
STUDENT RIGHTS OF EXPRESSION

The School recognizes the right of students to express themselves. With the right of expression comes the responsibility to do it appropriately. Students may distribute or display, at appropriate times, nonsponsored, noncommercial written material and petitions; buttons, badges, or other insignia; clothing, insignia, and banners; and audio and video materials. All items must meet the following school guidelines:

1. A material cannot be displayed if it:
   i. obscene to minors, libelous, indecent, or vulgar,
   ii. advertises any product or service not permitted to minors by law,
   iii. intends to be insulting or harassing,
   iv. intends to incite fighting or presents a likelihood of disrupting school or a school event,
   v. presents a clear and present likelihood that, either because of its content or manner of distribution or display, it causes or is likely to cause a material and substantial disruption of school or school activities, a violation of school regulations, or the commission of an unlawful act.

2. Materials may not be displayed or distributed during class periods, or during passing times between classes. Permission may be granted for display or distribution during lunch periods and after school in designated locations, as long as exits are not blocked and there is proper access and egress to the school.

Students who are unsure whether or not materials they wish to display meet school guidelines may present them to the school principal twenty-four (24) hours prior to display.

STUDENT CONCERNS, SUGGESTIONS, AND GRIEVANCES

The school is here for the benefit of the students. The staff is here to assist each student in becoming a responsible adult. If a student has suggestions that could improve the school, s/he should feel free to offer them. Written suggestions may be presented directly to the principal or to the student government.

When concerns or grievances arise, the best way to resolve the issue is through communication. No student will be harassed by any staff member or fear reprisal for the proper expression of a legitimate concern. Any suggestions, concerns, and grievances may be directed to the principal or to the student government.

ECDs are all electronic devices used to communicate with another and include, but are not limited to cell phones, iPads and personal computers. Use of ECDs in an unauthorized manner may result in disciplinary action, including confiscation, depending on the nature of the prohibited activity and/or whether it is a repeat offense for that student. The administration reserves the right to modify the consequences as appropriate. ECDs must be surrendered to an administrator or Public Safety Officer upon request.

Inappropriate use of any ECD is strictly prohibited. ECDs may not be “on” or otherwise used in school locker rooms or restrooms, whether here or at another school district where a school activity or athletic event is occurring. Any device of this type will be confiscated and the student subject to disciplinary action.

Students who possess an ECD shall assume responsibility for its care.

1. At no time shall the District be responsible for preventing theft, loss, vandalism or damage to ECDs brought onto school property and/or buses. Students and parents are strongly encouraged to ensure that, if students have ECDs in their possession, they should not leave them unattended or unsecured.

2. At any time, the use of electronic communication devices, or social media to harass, threaten or otherwise create a hostile environment at a school, or to disrupt the learning environment is subject to disciplinary action. This will range from confiscation of the device up to and including suspension from school.

Misuse of ECDs May Result In...

1st Offense  Device confiscated and returned to student at end of day.

2nd Offense  Device confiscated, parent to pick up at the end of the day and ECD privilege revoked.

Subsequent Offenses Device confiscated and additional disciplinary consequences up to and including suspension will be assigned.

RULES AND REGULATIONS FOR SAFE SCHOOL BUS BEHAVIOR

All provisions of the Lansing School District Student Handbook apply to students who are school bus passengers. In addition, the following special rules must be observed because of the unique safety requirements presented by a moving school bus. Any student violating these rules or committing other acts of misconduct on the bus may be given a written conduct warning and/or suspension notice. A suspended student must receive authorization from the principal before riding privileges can be reinstated.

1. The bus driver is responsible for the school bus and passenger safety. Students must cooperate with and obey the driver at all times. To ensure the safety of the driver and passengers, students are prohibited from bringing glass and other objects which could be used as weapons (e.g., baseball bat, scooter, skateboard, etc.) onto a school bus,

2. Loading and unloading of the school bus will be controlled by the driver, principal and school staff,

3. The emergency exit will be used only as the driver directs and is never to be touched at any other time,

4. Students shall arrive at their bus stop five (5) minutes before the scheduled pickup time and wait in a safe area off the roadway. Students will enter the bus in an orderly fashion and remain seated and quiet until it is time to leave the vehicle. Heads and arms will be kept inside the bus windows; feet will be kept out of the center aisle and on the floor at all times. Students will be instructed to stop and look both ways before crossing in front of the school bus,

5. A driver may require students to take assigned seats whenever it is necessary and may establish a seating chart for that purpose,

6. Information on bus stops and time schedules will be mailed to all eligible students prior to the opening of the school year.

7. No pets or other animals will be allowed on the bus.

8. Only authorized students are permitted on the bus.

9. Visitors may not ride school buses, i.e. prospective students, parents, non-Lansing School District students

10. School bus routes, stops and time schedules will be established by the Ingham Intermediate School District. Any proposed changes will be discussed with the Lansing School District Chief of Operations.
PROCEDURES FOR SAFE SCHOOL BUS BEHAVIOR

**Warnings and Suspensions**

**Riding a school bus is a privilege, not a right.** It is essential for students to observe a standard of safe conduct while riding a school bus. The bus driver will have the authority to issue a written conduct warning or a recommendation for suspension to any student who violates provisions of this Handbook or commits other acts of misconduct.

The driver will issue a written conduct warning, if the offense is so severe as to cause continuing danger to the safety of the bus and its passengers. In the case of severe behavior, a request for suspension will be submitted to the principal.

A copy of the bus conduct warning will go to the parents with the student. The form must be signed by the parent and returned to the bus driver by the student the next time he/she is to board the bus.

1. The principal is responsible for bus suspensions.

2. A student whose riding privileges are suspended will not be able to board the bus for the term of the suspension. Drivers will be available for parent conferences at the principal's request. A student suspended in the morning will be transported home on the bus that afternoon.

3. A student will be suspended from the bus at the end of a bus run. In extreme cases where the safety of others on the bus is in immediate jeopardy, secondary students may be suspended en route. Such en route suspensions will be communicated immediately to the school principal by the driver. In the event a student is suspended from the bus at school, it will be the principal's responsibility to contact the parents and arrange for the student to get home after classes are dismissed. At no time will a student be sent home on foot without the knowledge and consent of the parent. A student suspended from riding a bus to and from school will still have access to regularly scheduled school district transportation arranged for field trips, extracurricular activities and other school-sponsored functions.

**Student Complaints**

A student who feels a driver is executing responsibilities in an unsafe or improper manner may file a complaint with the principal, who will contact Dean Transportation. Dean Transportation will investigate the complaint and take whatever action is deemed necessary. Results of the investigation will be communicated to the parent either verbally or in writing as soon as is practical.
Disciplinary Action

Following the rules promotes a safe and orderly environment where learning will take place. Each school shall have a program of positive consequences for acting in accordance with school rules which may include: verbal and written recognition, special privileges, home reports, monthly activities and marking period awards.

STUDENT INTERVENTIONS TO CORRECT BEHAVIOR

Students who do not follow school rules will be subject to a series of interventions intended to correct the behavior. The student’s school is responsible for issuing behavior consequences. The Handbook shall apply to students:

1. On school property or in a school-related vehicle;
2. In attendance at school or at any school-sponsored activity;
3. En route to or from school or any school-sponsored activity;
4. Whose conduct at any place or time directly interferes with the operations, discipline, or general welfare of the school and school students/personnel;
5. When using school-owned telecommunications or computer resources and accounts or other district services.

CORRECTIVE ACTION

A student who exhibits behavior problems which interfere with teaching and learning may be temporarily removed from the classroom. In such cases, the teacher will fill out a discipline referral form and submit it to the principal as promptly as teaching obligations allow, but in no case later than the end of the teacher day unless extenuating circumstances dictate otherwise. Notice of the corrective action shall be recorded in the student’s disciplinary file.

PARENT NOTIFICATION

In every case resulting in suspension, the parent, or student (if age 18), will be notified by telephone and/or in writing the day of the suspension. In some cases of disciplinary action, a student may be suspended

What Are Restorative Practices?

- Address & discuss the needs of the school community.
- Build healthy relationships between educators & students.
- Reduce, prevent, & improve harmful behavior.
- Repair harm & restore positive relationships.
- Resolve conflict, hold individuals & groups accountable.

from school pending investigation of the incident. If disciplinary action involves suspension, no student will be sent out of the building during school hours unless a parent or another responsible person has been contacted. If a non-custodial parent, who is legally authorized for access to student records, wishes to have copies of suspension information mailed to their home, it is the responsibility of said parent to provide the school with the necessary address.

To encourage our students to develop safe and acceptable behavior, school administrators and staff members may take appropriate action that may include counseling, restorative justice, mediation, conflict management and/or referrals to community agencies. Parents shall contact the principal when they have concerns.

**RESTORATIVE PRACTICES**

Restorative Justice is a peaceful-conflict resolution program that aims to bring together students that have had conflict, to find ways to heal the harm that has been done. The program targets conflict situations in schools by engaging all affected parties.

Restorative Justice Facilitators are on site and are available as situations arise within schools. Restorative Justice addresses the conflict at the root, while promoting conflict resolution skills and empathy.

The Restorative Justice process is as follows:

1. **Referral:** student is referred to Restorative Justice by staff, administrators, or by oneself;
2. **Intake:** facilitators meet with all parties individually to talk about what happened, the effect of what’s happened, and what the student needs to move forward. After processing with the student individually, students decide if they’d like to participate in a circle intervention;
3. **Circle:** All parties are brought together for a circle, where the facilitator facilitates the conversation. Students are asked what happened from their perspective, who was affected and how, and what needs to happen to heal the harm;
4. **Agreement:** Students then create an agreement on how they plan to move forward from the situation, stating how they will solve the conflict, how they can avoid the conflict in the future, and how they plan to respond to situations in the future;
5. **Follow-Up:** Facilitators conclude the circle with a Short Term Survey, asking students how they feel the process went. Twenty-one days after the circle intervention, facilitators followup with a Long Term Survey, seeing how the students have progressed from their conflict.
Intended Outcomes
Restorative Justice address the conflict at its root:

1. Imposes accountability on and empowers those who have done harm to correct the harm caused by his/her behavior;
2. Empowers those who have been harmed to define what he/she needs to heal from the harm done;
3. Teaches and engages youth (and sometimes their families) in peaceful conflict resolution practices.

Searches and seizures

Searches:
Searches of students, personal property of students, lockers and motorized vehicles shall be conducted under the appropriate legal standard, to maintain the safety and security of students, teachers, guests and school property.

Authorized Personnel:
Personnel authorized to conduct searches shall include any principal, assistant principal, members of the Department of Public Safety, or any other school official specifically designated by the principal to conduct searches.

Searches of Students
Authorized school personnel may conduct a search of a student, book bag, backpack or any other student possession or belonging if they have reasonable suspicion for a search. In special circumstances, random searches may be necessary. Reasonable suspicion for a search means circumstances that would cause a reasonable person to believe that the search of a particular person, place or thing will lead to the discovery of:

1. Evidence of a violation of any local ordinance or state/federal law;
2. Evidence of a violation of the Handbook or any other Board of Education policy or administrative regulations;

3. Any item which represents a danger of physical harm or illness to any student, staff, guest or school property, whether on school property, at a school sponsored event or going to or from school.

Upon reasonable suspicion and in order to protect the health, safety, or welfare of the students under the supervision of the school district, the principal or their designee may search students. Two adults shall be present during a search of a student.

If the student refuses to comply, an attempt will be made to contact a parent and the matter will be referred to the Department of Public Safety or other law enforcement agency, as appropriate. The Department of Public Safety or other law enforcement agency will conduct a physical search of the student as permitted under law.

**Locker Searches**

All lockers in the Lansing School District are the property of the district and are under the supervision of the school principal or designated representative. At no time does the district relinquish its exclusive control of its lockers. Students are prohibited from placing private locks on school lockers. Authorized personnel shall remove any private locks placed on school lockers.

School lockers are assigned to students for their convenience and temporary use. Students are to use school lockers exclusively to store school-related materials and authorized personal items such as outer garments, footwear, grooming aids and lunch. Students are solely responsible for the contents of their lockers and may not share their locker or locker combination with other students.

Random searches of school lockers will be conducted. Authorized personnel may search lockers and locker contents at any time, without notice and without student or parent/guardian consent. A certified detection dog and handler may be used to conduct random searches of lockers. Two (2) adults shall be present during a locker search.

If a law enforcement officer desiring to search a locker assigned to a student has a search warrant for such search, the principal or his/her designee shall immediately take such officer to the locker assigned to the student and permit him/her to search the locker. Whenever possible, such search shall be made in the presence of the principal or his/her designee. A law enforcement officer may search a locker without a search warrant if given consent to search by the person to whom the locker is assigned.
If a law enforcement officer, other than an officer of the Lansing School District Department of Public Safety, desires to search a locker assigned to a student without a warrant, the principal or his/her designee shall ask what facts lead the officer to believe that evidence of a crime will be lost, destroyed or moved if the search and seizure did not take place immediately, before a warrant is obtained. If the school principal or his/her designee is not of the same opinion as the officer, he/she will permit the officer to proceed on his/her own authority but shall not participate in the search. The principal or his/her designee shall immediately report the incident to the Director of Public Safety, who will notify the officer’s superior of the incident.

**Seizures**

Items believed to be connected to illegal activity or violation of the Handbook, Board policy, administrative regulation, or which represents a danger of physical harm or illness to any student, staff, guest, or school property may be seized by the person conducting the search. Any items seized as a result of a search shall be turned over to the Department of Public Safety or other law enforcement agency. Confiscated items may not be returned.

**Searches of Motor Vehicles**

Authorized personnel may search any motorized vehicles brought onto school property by a student at any time upon reasonable suspicion that the motorized vehicle contains:

1. Evidence of a violation of any local ordinance or state/federal law;

2. Evidence of a violation of the Code or any other Board of Education policy or administrative regulations;

3. Any item which represents a danger of physical harm or illness to any student, staff, guest, or school property, whether on school property, at a school sponsored event, or going to or from school.

Such a search may be conducted without notice to the student. Students refusing to cooperate in allowing a search of the motorized vehicle shall immediately lose their driving and parking privileges and shall be subject to further disciplinary action as specified in the Handbook.

To protect the health, safety or welfare of the students and school community, law enforcement will be contacted to assist in searching vehicle brought on to school property by a non-student. A certified detection dog and handler may be used to develop reasonable suspicion and initiate a search.
Emergency Seclusion

Emergency seclusion may not be used longer than necessary for a student to regain control.

- No longer than 15 minutes for elementary;
- No longer than 20 minutes for middle/high school;
- If longer than 15/20 minutes:
  - Additional support may be required (e.g., Substitute personnel, nurse, or additional key personnel.)

PHYSICAL INTERVENTION OR SECLUSION BY STAFF

Emergency Physical Restraint involves direct physical contact that prevents or significantly restricts a student’s movement. Emergency Physical Restraint is a last resort emergency safety intervention. Emergency Physical Restraint is an opportunity for the student to regain self-control.

Employees are permitted to use physical restraint (instead of ‘force’) upon a student to:

1. Protect themselves or another person from physical attack
2. Prevent the student from harming him/herself
3. Stop a disturbance that may result in physical injury to any person
4. Obtain possession of a weapon or other dangerous object

6. Physically escort a student who is engaging in behavior disruptive to the educational environment and who has failed to comply with verbal directions to stop such behavior. Physically escorting is the touching or holding of a student with a minimum use of contact for the purpose of directing movement from one place to another
7. The school district reserves the right to talk with students to investigate issues arising at school, on the bus, and at school-related activities.

The intervention shall be safe, appropriate, proportionate and sensitive to the severity of the behavior, the age and development stage of student, physical size, gender, physical medical and psychological conditions, and personal history (physical or sexual abuse or trauma).

The Lansing School District prohibits unlawful sexual harassment. This prohibition covers sexual misconduct towards students by students, District staff, Board members or school vendors, at school or at a school-sponsored event or activity.

Any student who believes s/he has been a subject of prohibited sexual harassments should immediately report to a principal, teacher or one of the District’s Compliance Officers (see page 6). Parents may also report these concerns.

Students or employees found to have engaged in acts of sexual misconduct—which includes unwelcome or coerced sexual acts or conduct of a sexual nature—will be promptly disciplined. Discipline may include, if circumstances warrant, suspension or expulsion of a student and suspension or termination of an employee.

The Lansing School District prohibits sexual contact between students at school, on a school bus, or at a school sponsored activity or event. The District will not tolerate acts against students that constitute sexual assault or sexual conduct of any nature.

Sexual Assault is legally/criminally defined as Criminal Sexual Conduct in degree’s one through four, which includes any sexual act directed against another person, forcibly and/or against that person’s will, or any non-forcible sexual act against the person’s will where the victim is incapable of giving consent and where force or coercion is used or threatened. Use of authority is a form of coercion.

A person age 15 or under cannot legally consent to sexual acts. The Student Handbook prohibits sexual acts regardless of age. If such conduct occurs at school, on the school bus, or at a school sponsored event or activity, a student should report the conduct both to staff of the Lansing School District (i.e., principal, teacher, public safety, or the district’s Compliance Officers) and to law enforcement.

All sexual activity or conduct between District employees and students is a violation of Board policy, is prohibited and must be reported by District employees, when known. This also includes a request for sexual favors or other verbal or physical conduct of a sexual nature where such conduct has the purpose or effect of unreasonably interfering with a students educational performance by creating an intimidating, hostile or offensive educational environment. (Sexual intimidation is included under “Intimidation/Stalking/Threats”)

Conduct is considered unwelcome if the student did not request or invite it and considered the conduct to be undesirable or offensive. The age of the student, the nature of the conduct, and other relevant factors affect whether a student was capable of welcoming the sexual conduct.

A student’s submission to the conduct or failure to complain does not always mean that the conduct was welcomed.

Example 1: A student makes offensive sexual jokes to another student, but the student does not object to the jokes or speaks out against them. The student’s failure to object does not mean that s/he has welcomed the comments.

Example 2: Student #1 willingly blows a kiss at student #2 on one occasion at school. The next school day, while on the school bus, student #1 blows a kiss, again, to student #2 and uses sexually explicit gestures toward student #1. Student #1 smiles, but does not respond or report. Because student #1 did not respond or report, does not mean s/he has welcomed the behavior.
The Lansing School District prohibits sexual contact between students at school, on a school bus, or at a school sponsored activity or event. The District will not tolerate acts against students that constitute sexual assault or sexual conduct of any nature.

TITLE IX policy/interim measures may be applicable to instances that occurred outside of school, and/or before and after school.

**Theft/Possession of Stolen Property (level 1-6)** Unlawful taking, stealing or possession of money or property.

**Tobacco or Vaping Paraphernalia (level 2-3)** Possession of Tobacco or Vaping Paraphernalia is prohibited. This policy is inclusive of, but not limited to, all tobacco products e-cigarettes, vaping devises, e-pipes, hookah pens, other electronic nicotine delivery device, etc.

**Unauthorized Presence/Trespassing/Loitering (level 1-5)** Being in or around any area of the school when the student has no legitimate reason to be there; the act of congregating or lingering in a school building or on school property without permission of a staff member. This also includes unauthorized presence at any school property or community location during school hours when a student has traveled to or from a Lansing School District building or activity. Any student suspended or expelled from school is prohibited from being present on any property belonging to the Lansing School District.

**Violations of City Ordinances, State or Federal Law, or Criminal Acts (level 2-6)** Commission of or participation in any acts prohibited by federal or state law or local ordinance when such acts affect the safe and orderly operations of the school, regardless of whether criminal charges result.

**Weapons (level 2-6)** Sale, Possession, or Use, carrying, using, handling, storing or threatening with weapons or other dangerous objects in a school or on school grounds may require expulsion. Weapons are identified in three categories: (1) dangerous weapons that require expulsion: (firearm, dirk, dagger, stiletto, knife with a blade in excess of three (3) inches, knife opened by mechanical device, iron bar, brass knuckles); (2) other weapons commonly used or designated to inflict bodily harm or to intimidate including, but not limited to: air guns (air guns can be lethal, and are different from airsoft guns), bb guns, blackjacks, billy clubs, bludgeons, tazers, gas-ejecting devices, knife with a blade three (3) inches or less in length, stun grenades, chains, clubs and martial arts weapons; (3) articles designated for other purposes that are used to inflict bodily harm or to intimidate, including but not limited to: belts, box-cutters, combs, pencils, files, razors and compasses.

**SUSPENSIONS**

To exclude a student from school for disciplinary reasons for a period of fewer than 60 school days.

Non-severe violations to the Student Handbook (see pages 21-22) may result in suspension from school. School principals may suspend a student for up to 9 days for any violation. Suspensions will be included in the student’s records, subject to future disciplinary action based on a pattern of behavior. Any recommended suspension for 10 or more days may require a referral to the Office of School Culture with documentation supporting state legislative factors consideration.

A suspended student may not be on school property, attend any school-related activities or participate in any extracurricular school activities while on suspension, without permission of the principal. The school must provide
academic work for a suspended student during the suspension period. It is the parent’s responsibility to contact the school about receiving such work which shall be made available to the parent 24 hours after the request has been received. Immediately upon returning to the school from a suspension, the student will be responsible for contacting each teacher to ensure that all missed classwork has been completed. The principal may require a conference with the parent and student and, when appropriate, the teacher before a student returns. The goal of this conference is to create a plan for student success. A plan will be written, signed and copies given to the student, parent and teacher, as well as filed at the school.

Snap Suspension
Pursuant to Michigan Law, a teacher is authorized to immediately remove and suspend a student from a class, subject, or activity when the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with the teacher’s ability to effectively teach the class, subject, or activity, or the student’s behavior interferes with the ability of other students to learn. (MCL 380.1309)

Snap Suspension Guidelines
People eligible to utilize snap suspensions include teachers in the Lansing School District who are responsible for the class, subject or activity.

At the elementary level, a class, subject or activity is defined as the time period that the teacher is directly responsible for providing instruction or supervision. At the secondary level, a class, subject, or activity is defined as the single time period within a student’s schedule for which a teacher has the direct responsibility for providing instruction or supervision.

If the teacher suspends the student, the teacher must report the suspension and the reason for the suspension to the principal in writing as promptly as teaching obligations allow, but in no case later than the end of the teacher day, using the student snap suspension form. The teacher must send the student to the principal for appropriate action. If the student remains in school, the principal shall ensure that the student shall be under appropriate supervision. The student will not be returned that school day to the class, subject or activity from which he or she was suspended without the mutual agreement of the suspending teacher and the principal. A snap suspension may be for only one full school day at the elementary level or one full class period at the secondary level.

As soon as possible after the snap suspension, but not later than the next school day, the teacher shall ask the student’s parent to attend a parent-teacher conference to discuss the suspension. The teacher shall report the outcome of the conference to the principal in writing no later than the following school day using the parent-teacher conference report form. Whenever practicable, a school counselor, psychologist or social worker shall attend the conference. A principal shall attend the conference at the request of the teacher or parent.

Suspensions to the Office of School Culture
All recommended school suspensions for 10 or more days are to be referred to the Office of School Culture and require the principle or designee to provide documentation supporting state legislative Mandatory 7 Factors Consideration. A Department of Public Safety Report is required for any suspension to the Office of School Culture.

It shall be the principal’s responsibility to schedule a conference with the Office of School Culture by the end of the next school day. The principal shall notify the parent of the time, date and location of the meeting. The principal will participate in the conference with the student and parent, whenever possible and shall implement the decision rendered by the Office of School Culture.

EXPULSIONS

To exclude a student from school for disciplinary reasons for a period of 60 or more school days.

Severe or major violations to the Student Handbook (see pages 34-35) may result in expulsion from the school district. The Board of Education or its designee makes the final decision on expulsions. State mandated expulsions will be decided by a panel of Board of Education members and its decision is final. All non-mandatory
expulsions will be decided by the Consultation Team designated by the Board of Education.

**State-Mandated Expulsions**  
(Revised School Handbook 380.1311)

State law suggests the Board of Education or its designee to consider permanent expulsion, subject to possible reinstatement by the Board of Education, for any student who:

1. Possesses a dangerous weapon (firearm, dagger, dirk, stiletto, knife with a blade over three [3] inches in length, pocket knife opened by mechanical device, iron bar, or brass knuckles) in a weapon-free school zone;
2. Commits arson in a school building or on school grounds;
3. Commits criminal sexual conduct in a school building or on school grounds;
4. Commits (in grade six or above) a physical assault against a school employee, volunteer, or contractor on school premises, or a school-related vehicle, or at a school-sponsored activity, regardless of location.

State law suggests that the student be expelled for the minimum duration noted below before possible reinstatement:

1. Dangerous weapon (grades six or above): permanent expulsion
2. Dangerous weapon (grades five or below):
   - Ninety (90) school days if a firearm or weapon is used to threaten another person
   - Ten (10) school days if not a firearm or not used to threaten another person
3. Physical assault to employee or volunteer:
   - Students grades six and above: permanent expulsion
   - Students grades five and below: discretion of the Board of Education or designee
4. Criminal Sexual Conduct which qualifies as a felony under the Michigan Penal Code: One hundred eighty (180) days
5. Arson: One hundred eighty (180) days
6. A recommendation to permanently expel a student shall be presented to the Board of Education or its designee by the Superintendent of Schools within thirty (30) school days following the suspension based on the resulting investigation of the incident by the appropriate school safety officer and/or Public Safety Department's central staff. Should extenuating circumstances arise, the Superintendent shall have ten (10) additional school days in which to bring an expulsion recommendation to the Board.

**MANDATORY FACTORS TO CONSIDER**  
(Revised School Handbook 380.1310d [4])

Except for use/possession of a firearm, consideration of the following factors is mandatory before suspending or expelling a student for 10 or more school days:

1. Student's Age
2. Disciplinary History
3. Status Disability
4. Seriousness of Behavior
5. Whether the behavior posed a safety risk
6. Whether or not restorative justice would change the behavior
7. Whether or not a lesser intervention would address the behavior
Schools shall consider using restorative practices as an alternative to suspension or expulsion. If a school suspends or expels a student, the school shall consider using restorative practices in addition to suspension or expulsion.

**Rebuttable Presumption**
An assumption that a suspension is not justified unless 1310d factors are considered. Rebuttable presumption is one that may be overcome if the evidence demonstrates that the presumption is not correct.

For suspensions of 9 days or less, there is no rebuttable presumption, but the school shall consider each of the above factors in the determination.

**One Exception**
A student in possession of a weapon (with the exception of a firearm) may establish one of the following in a clear and convincing manner:

1. The weapon was not intended to be used as a weapon, or for the delivery for use as a weapon;
2. The weapon was not knowingly possessed;
3. The student did not know the object was considered a weapon;
4. The weapon was possessed at the suggestion, request or permission of school personnel, DPS, or the police

Rebuttable Presumption for Weapons:
- Board OR designee determines in writing that at least one of the weapons exemptions has been established in a clear and convincing manner AND
- Student has no history of suspension or expulsion

The Lansing School District may exercise discretion with regard to suspension of more than 10 days or an expulsion. However, there will be rebuttable presumption (an assumption that suspension is unnecessary based on evidence) that a suspension is not justified unless the (school) can demonstrate each of the above factors.

**NON-MANDATORY EXPULSIONS**

As suggested by State Law, Board or designee may suspend or expel, subject to possible reinstatement, a student in grades 6-12 who:

1. Makes a bomb threat or similar threat directed at a school building, other school property or a school-related event.
2. Commits a physical assault against another student on school premises, on a school-related vehicle or at a school-sponsored activity regardless of location.

Any behavior, grades K-12, which threatens the safety of the students and/or staff of the Lansing School District may result in expulsion.

When appropriate, expelled students will be referred for prosecution. Students who believe they are victims of criminal sexual conduct may (1) pursue a formal or informal complaint with the District’s Compliance Officers (see page 6); (2) may pursue a criminal complaint with the appropriate law enforcement agency; or (3) pursue both types of complaints, simultaneously.

**APPEAL PROCEDURES**

**School Level Suspension**

1. The parent of a student under 18 years of age or a student (if 18) shall first appeal a disciplinary action to the administrator who imposed the penalty.
2. At the secondary level, a further appeal may be made to the principal.
3. Appeals beyond the school level will be directed to the Superintendent of Schools or their designee.
The student’s disciplinary status shall remain the same through the appeal procedures.

**Office of School Culture Decisions**

1. The parent of a student under 18 years of age or a student (if 18) shall request an appeal form from the Office of School Culture.

2. The appeal form must be returned to the Office of School Culture within five (5) school days of written receipt of the decision.

3. The Associate Superintendent for School Culture will convene a meeting within ten (10) school days after the request is filed to hear the appeal.

The student’s disciplinary status shall remain the same through the appeal procedures.

**Consultation Team Decisions**

1. The parent of a student under 18 years of age or a student (if 18) shall request an appeal form from the Office of School Culture.

2. The appeal form must be returned to the Office of School Culture within five (5) school days of written receipt of the decision.

3. The Consultation Team will convene a hearing within ten (10) school days after the request is filed.

4. The parent of a student under 18 years of age or a student (if 18) will receive written notification of the decision from the Expulsion Consultation Team.

The student’s disciplinary status shall remain the same through the appeal procedures. The Consultation Team is the designee of the Board of Education; therefore the appeal decision is final. There is no further appeal process for this decision. All mandatory expulsions decided by the Lansing School District Board of Education are final and there is no appeal process.

**REINSTATEMENT**

A permanently expelled student may apply for reinstatement to the Board of Education as permitted by law. Any other expelled student shall be reinstated subject to readmission conditions. These conditions are as follows:

1. A statement, provided by the parent, from a licensed counselor, stating that the student has satisfactorily participated in a minimum of 6 counseling sessions and it is recommended that he/she return to the regular school program.

2. A written statement, provided by the student, indicating a willingness to comply with all rules and regulations of the Student Handbook.

3. A statement from local law enforcement authorities, obtained by Student Services, indicating that there has been no further negative contact with law enforcement.

4. Verification, obtained by Student Services, that the student has not been found trespassing on Lansing School District during the term of his/her expulsion.

5. Verification, obtained by the Office of School Culture, of participation in Graduation Alliance for students who are between the ages of 14-19.

Satisfactory completion of the above criteria would not automatically result in readmission, but would serve as the minimal standard of effort and behavior which the student must demonstrate in an application for readmission. Additional conditions may be imposed, as necessary for individual circumstances.
The nature of discipline implies the acceptance of rights and responsibilities by everyone involved in the process: student, parent, teacher, administrator and all other school personnel. While the School Administrator bears the primary responsibility for maintaining proper control and discipline within the school building and grounds, each teacher bears the primary responsibility for maintaining proper control and discipline within the classroom. Teachers also share responsibility for the maintenance of proper control and discipline in other areas of the school building and grounds. Disciplinary actions and methods shall be reasonable, just, prompt and in accordance with the policies and procedures of the Lansing School District Student Handbook.

The Lansing School District recognizes that parents are an integral part of their child’s education, which includes behavior at school. Therefore, in order to keep parents informed, teachers and other staff will contact parents to ensure parents’ knowledge of behavioral issues. Positive progressive consequences should be supported by positive progressive intervention.

**Level 1: Teacher/Staff Directed Interventions**
Teachers/teams/staff members may initiate any of the following actions:

1. Create classroom rules/expectations and consequences as a community based on school-wide expectations and implement with fidelity,
2. Provide positive feedback to students on appropriate behavior,

4. Focus on and reward appropriate behavior,

6. For suspensions of 10 or more days, documentation supporting state legislative 7 factor consideration is mandatory.

Level 6: Expulsion Meeting/Expulsion*
Expulsion is the denial of a student’s right to attend school or school sponsored activities.

SCREEN TO SCREEN CODE OF CONDUCT

All Lansing School District students receiving screen to screen instruction are subject to the same district policies in the 2020-2021 Student Code of Conduct as well as the Student Screen to Screen Code of Conduct. There are additional rules and expectations of students during screen to screen etiquette to ensure the safety of all staff, parents and students. All students are expected to use screen to screen learning in a manner that is respectful, legal, and sensitive towards the feelings of others.

APPROPRIATE USAGE OF TECHNOLOGY

There are a number of sites that contain offensive, illegal, unethical and inappropriate material which should not be viewed by students. The Lansing School District will make every attempt possible to block these websites, however it is expected that students will only research the web using sites that are applicable to the course content. We will work in partnership with parents throughout the year, and will have a special presentation on Cybersecurity provided by our new STAR grant for all staff and parents as it relates to internet safety.

Teachers and administrative staff will maintain frequent ongoing communication with parents and guardians regarding student performance during the screen to screen learning curriculum.
