For Seniors at risk of failing one or more courses there are 4 options available to them. Teachers will be contacting Seniors with failing grades prior to next Tuesday informing them of their options. A robocall will also be sent to Senior parents/guardians of Seniors at risk of failing.

Seniors at risk of failing will be able to choose the following options with each class.

1. Seniors who currently have a 50% or better in a course can remain in the course, join Google Classroom and will have an opportunity to work towards raising their grade by one grade level.

2. Seniors who had a 49% or lower in a course will have the option of taking APEX for credit recovery. If a Senior chooses this option they will need to make contact with their teacher to inform the teacher this is the option that the Senior has chosen. It will be the student’s responsibility to contact Ms. Hency directly to be placed in the APEX course.

3. Seniors with a “D” grade in a course can choose to take a “G” instead.

4. Seniors with a failing grade in a class can choose to keep the failing grade.

Thank you for your patience as we work through this process.
