In light of the Governor's Executive order to close schools in Michigan for the rest of the current school year, we want you to know that the Ingham Community Health Centers, through the Ingham County Health Department, are here for you and your family.

Lansing School District is fortunate enough to have the Ingham Community Health Centers located in five schools throughout the District, which not only provide routine and primary health care services, but also mental health services to the children who are patients of our Health Centers, and their families. Whether your child is struggling with lack of social interaction, feelings of sadness, anxiety, or grief/loss; we encourage you to reach out so you and your child have a safe and confidential space to talk. We also want to support parents who are having difficulties with their child’s behavior at home, managing their own emotions, or any other issues that have come up during this time.

While the schools are closed, we are offering TeleHealth services. We are using an audio and video application to communicate. This application is free to use and can be downloaded on your phone or computer. If you do not have access to these services, we are also able to do telephone consults with you and/or your child. We want your child and your family to have the tools they need to handle the social and emotional challenges brought on by the COVID 19 pandemic, as well have the tools needed to handle routine emotional, social and behavioral challenges you or your child may be facing.

If you or your child is not a current patient of the Ingham Community Health Centers, please reach out anyway so we can get you registered!

If you are in need of medical care, please contact Willow Community Health Center: 517-702-3500. Willow Health Center is able to provide care to those between the ages of 5-25. We are currently able to provide TeleHealth as well as in person visits depending on severity of illness. Please note we have recently moved to a new location: 1115 S Pennsylvania Ave., Lansing, MI 48912

Please contact the following people for mental health services, depending on where your child attends school to arrange for an appointment.

Eastern High School: Christina Rios: 517-252-7587

Everett High School: Milisa Rahme: 517-881-7468

Pattengill Biotechnical: Stephanie Rudlaff: 517-881-7058

Sexton High School: Karlee Shave: 517-881-8239

Willow Community Health Center: Amanda Schoeppe 616-287-0081

All of us at the Ingham County Health Department hope you are all staying safe and healthy in the days and weeks to come.
