INDEPENDENT AUDITOR'S REPORT

To the Board of Education Lansing School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lansing School District, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Lansing School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Lansing School District as of June 30, 2010 and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2010, on our consideration of Lansing School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages vi through xvi and 30, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lansing School District's basic financial statements. The additional information on pages 32 through 49 is presented for purposes of additional analysis and is not a required part of the basic financial statements. This additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Maner Costerisan PC

October 15, 2010

This section of the Lansing School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended on June 30, 2010. Please read it in conjunction with the District's financial statements, which immediately follow this section.

District-Wide Financial Statements

The first two statements are district-wide financial statements that provide short-term and long-term financial information about the District's overall financial status. These statements are required by generally accepted accounting principles (GAAP) as described in the Government Accounting Standards Board (GASB) Statement No. 34. The statements are compiled using the full accrual basis of accounting and more closely represent financial statements presented by business and industry. All of the District's assets and liabilities, both short and long-term, are reported. As such, these statements include capital assets, net of related depreciation, as well as the bonded debt of the District.

Fund Financial Statements

For the most part, the fund financial statements are comparable to financial statements for fiscal years prior to 2003-04. The primary difference is that the Account Groups (General Fixed Asset and General Long-term Debt) are no longer reported. The fund level statements are reported on a modified accrual basis in that only those assets that are "measurable" and "currently available" are reported. Liabilities are recognized to the extent that they are normally expected to be paid with current financial resources.

The formats of the fund statements comply with the requirements of the Michigan Department of Education's "Accounting Manual". In the state of Michigan, school districts' major instructional and instructional support activities are reported in the General Fund. Additional activities are reported in various other funds which include Special Revenue Funds, Debt Service Funds, and Capital Projects Funds.

In the fund financial statements, capital assets purchased are reported as expenditures in the year of acquisition with no asset being reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long-term obligations are recorded as expenditures. The obligations for future years' debt service are not recorded in the fund financial statements.

Summary of Net Assets

The following schedule summarizes the net assets for fiscal years ended June 30, 2010 and 2009:

	 June 30, 2010	June 30, 2009
Assets		
Current assets	\$ 50,490,631	\$ 53,891,280
Capital assets	178,994,376	176,652,925
Less: Accumulated depreciation	 (86,679,828)	(82,286,470)
Capital assets, net book value	 92,314,548	94,366,455
Other noncurrent assets	 354,243	388,759
Total assets	\$ 143,159,422	\$ 148,646,494
Liabilities Current liabilities Long-term liabilities	\$ 32,950,855 62,819,855	\$ 33,950,991 67,129,344
Total liabilities	 95,770,710	101,080,335
Net Assets		
Invested in capital assets, net of related debt	30,341,034	27,814,386
Restricted for debt service	3,460,576	2,105,070
Unrestricted	 13,587,102	17,646,703
Total net assets	 47,388,712	47,566,159
Total liabilities and net assets	\$ 143,159,422	\$ 148,646,494

Analysis of Financial Position

During the fiscal year ended June 30, 2010, the District's net assets decreased by (\$177,447). A few of the more significant factors affecting net assets during the year are discussed below:

1. Depreciation Expense

GASB 34 requires school districts to maintain a record of annual depreciation expense and the accumulation of depreciation expense over time. The net increase in accumulated depreciation expense is a reduction in net assets.

Depreciation expense is recorded on a straight-line basis over the estimated useful lives of the assets. In accordance with GAAP, depreciation expense is calculated based on the original cost of the assets less an estimated salvage value, where applicable. For the fiscal year ended June 30, 2010, \$4,393,358 was recorded for depreciation expense.

2. Capital Outlay Acquisitions

For the fiscal year ended June 30, 2010, \$2,341,451 of expenditures were capitalized and recorded as assets of the District. These additions to the District's capital assets will be depreciated over time as explained above.

The net effect of the new capital assets (\$2,341,451), assets disposed and reclassified of during the fiscal year (\$0), and the current year's depreciation (\$4,393,358) is a net decrease to capital assets in the amount of \$2,051,907 for the fiscal year ended June 30, 2010. The net decrease in capital assets is due mainly to depreciation offset by capital acquisition.

Results of Operations

For the fiscal years ended June 30, 2010 and 2009, the results of operations, on a District-wide basis, were:

	Fiscal year ender 2010		Fiscal year ended June 30, 2009		
General Revenues					
Property taxes	\$ 29,806,360	16.5%	\$ 30,362,639	16.3%	
Investment earnings	142,853	0.1%	431,165	0.2%	
State sources	89,637,966	49.7%	90,759,252	48.4%	
Federal - unrestricted	4,102,636	2.3%	5,434,419	2.9%	
County special education allocation	8,061,189	4.5%	8,504,829	4.5%	
Other	1,516,746	0.8%	928,462	0.5%	
Total general revenues	133,267,750	73.9%	136,420,766	72.8	
Program Revenues					
Charges for services	2,573,911	1.4%	2,650,171	1.4	
Operating grants	44,585,269	24.7%	48,374,899	25.8	
Total revenues	180,426,930	100.0%	187,445,836	100.0%	
Expenses					
Instruction	97,484,567	53.8%	97,983,212	53.3%	
Support services	69,238,630	38.2%	71,143,187	38.8%	
Community services	537,029	0.3%	650,706	0.4%	
Food services	6,931,184	3.8%	6,889,976	3.8%

Interest on long-term debt	2,717,444	1.9%	2,998,181	1.6%	
Unallocated depreciation expense	1,619,416	0.9%	1,674,721	0.9%	
Total expenses	180,604,377	100.0%	183,469,863	100.0%	
Increase (decrease) in net assets	\$ (177,447)		\$ 3,975,973		

Analysis of Significant Revenue and Expenses

Significant revenues and expenditures are discussed in the segments below:

1. Property Taxes

The District levies 18 mills of property taxes for operations on non-principal resident exempt property and 6 mills on commercial personal property, less the mandatory reductions required by the Headlee Amendment, Article IX, Section 31. According to Michigan law, the tax levy is based on the taxable valuation of properties. The annual taxable valuation increases are capped at the rate of increase in the prior year's Consumer Price Index or 5%, whichever is less. At the time the property is sold, its taxable valuation is readjusted to the State Equalized Value, which in theory is one half of the property's market value.

For the 2009-2010 fiscal year, the District levied \$23,709,232 in non-principal property taxes. This amount represented an increase of 2.2% from the prior year.

The following table summarizes the non-homestead property tax levies for operations for the past five years:

Fiscal year	Non	-homestead tax levy	% Increase (decrease) from prior year
2009-2010	\$	23,709,232	2.2%
2008-2009		23,203,833	(6.1)%
2007-2008		24,704,452	3.4%
2006-2007		23,899,051	1.4%
2005-2006		23,577,830	4.5%

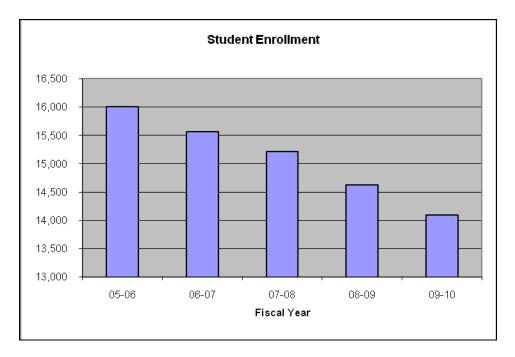

2. State Sources

The majority of the state sources of revenue is comprised of the per student foundation allowance. The State of Michigan funds school districts based on a blended student enrollment. The blended enrollment consists of 75% of the current year's fall count and 25% of the prior fiscal year's spring count. For the 2009-2010 fiscal year, the District received \$7,835 per student (FTE) inclusive of the \$163 per pupil received for class size reduction, which represented no change per pupil from the amount received for the 2008-2009 fiscal year. In lieu of reducing the per pupil allocation, the State assessed the District \$154 per pupil reduction (Section 11d) that was applied against the District's categorical 31A funds.

3. Student Enrollment

Student enrollment has declined by 11.9% during the last 5 years.

Fiscal year	Actual Blended student FTE
2009-2010	14,098
2008-2009	14,630
2007-2008	15,215
2006-2007	15,561
2005-2006	16,007

4. **Operating Grants**

The District receives a significant portion of its operating revenue from categorical grants. For the fiscal year ended June 30, 2010, federal, state, and other grants accounted for \$44,585,269 (excludes \$4,102,636 ARRA Stabilization funds). This amount represents an 8% decrease from the total grant sources of \$48,374,899 received for the 2008-2009 fiscal year.

5. County Special Education Allocation

For the fiscal year ended June 30, 2010, the District received a net allocation from the Ingham Intermediate School District in the amount of \$9,067,646 to assist with the education of students with special needs. This amount represents a decrease of \$403,200 as compared to the allocation of \$9,470,846 received during the 2008-2009 Fiscal Year.

6. Interest Earnings

The District received interest on its investment of short-term available cash in the amount of \$142,853 for the fiscal year ended June 30, 2010. Interest revenues are less than the prior fiscal year by \$288,309 due in part to a significant decline in interest rates as well as a shift in investment tools to better secure our funds – including the utilization of NOW accounts. NOW accounts provided interest rates that were typically less than 0.50%, yet our funds were 100% insured.

7. Comparative Expenditures

A comparison of the expenditures reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances is shown below:

	2009-2010 fiscal year	2008-2009 fiscal year	Increase (decrease)		
Instruction	\$ 95,563,586	\$ 96,196,116	\$ (632,530)		
Supporting services	68,807,398	70,708,456	(1,901,058)		
Food service activities	6,886,295	6,854,548	31,747		
Athletic activities	1,563,625	1,627,126	(63,501)		
Community service activities	541,074	645,662	(104,588)		
Capital outlay	2,929,273	1,284,480	1,644,793		
Debt service	9,185,530	6,800,233	2,385,297		
Total expenditures	\$ 185,476,781	\$ 184,116,621	\$ 1,360,160		

8. General Fund Budgetary Highlights

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the annual budget prior to the start of the fiscal year on July 1. Any amendments to the original budget must be approved by the Board prior to the close of the fiscal year on June 30. For the 2009-2010 fiscal year, the District amended the general fund budget twice, with the Board adopting the final changes in June, 2010.

The following schedule shows a comparison of the original general fund budget, the final amended budget, and actual totals from operations.

	Original Budget	l	Final Budget	Actual	Variance with Final Budget	% Variance
Total revenues	\$ 172,932,000	\$	179,252,000	\$ 163,498,055	\$ (15,753,945)	(8.8)
Expenditures: Instruction Supporting Services	\$ 98,993,000 74,507,000	\$	105,939,000 74,833,000	\$ 95,563,586 68,807,398	\$ 10,375,414 6,025,602	9.8 8.1
Community Services	 1,023,000		1,447,000	 541,074	 905,926	62.6
Total expenditures	\$ 174,523,000	\$	182,219,000	\$ 164,912,058	\$ 17,306,942	9.5
Other financing sources (uses) – transfers out	\$ (1,402,000)	\$	(1,381,000)	\$ (1,321,151)	\$ 59,849	(4.3)

The original revenue budget of \$172.9 million was increased to \$179.3 million to recognize the effect of additional State categorical grant funding and the effect of Federal ARRA Stabilization revenues. The District's budgeting process budgets for all grants at the awarded amounts. This budgeting process will always result in a variance between the grant amount awarded and the actual amount spent. Approximately \$15 million of the budget variance is accounted for by the variance in grants awarded verses grants expended.

Capital Asset and Debt Administration

Capital Assets

By the end of the 2009-2010 fiscal year, the District had invested approximately \$179 million in a broad range of capital assets, including school buildings and facilities, school buses and other vehicles, and various types of equipment. This represents a net increase of approximately \$2.3 million over the prior fiscal year. Depreciation expense for the year amounted to approximately \$4.39 million, bringing the accumulated depreciation to approximately \$86.6 million as of June 30, 2010.

16,617 04,501 25,859	\$ - 10,050,278	1,1	516,617 104,501	\$ 4,516,617
<i>,</i>	- 10,050,278	,	,	
25,859	10,050,278	9.1		1,672,916
		- ,-	175,581	9,513,476
14,312	61,749,937	72,7	764,375	73,015,058
46,066	4,424,123	2	221,943	418,763
87,480	1,354,851		32,629	43,010
99,541	9,100,639	4,4	198,902	 5,186,615
04.276	\$ 86,679,828	\$ 92,3	314,548	\$ 94,366,455
	99,541 94,376			

Long-term Debt

At June 30, 2010, the District had approximately \$64 million in bonded debt outstanding. Total outstanding debt decreased as the District continued to pay down its debt, retiring \$5.6 million of outstanding bonds.

Factors Bearing on the District's Future

At the time that these financial statements were prepared and audited, the District was aware of the following items that could significantly affect its financial health in the future.

- \geq The District received a student foundation allowance from the State of Michigan of \$7,835 per pupil for the 2009-2010 school year. (Effective for fiscal year 2007-2008 the State has included the reduced class size allocation in the student foundation allowance, giving the appearance that the student foundation allowance increased more than it really had. The inclusion of the reduced class size allocation accounts for \$163 of the increase in the foundation allowance.) Adjusted for the inclusion of the reduced class allocation, the District received \$7,672 from the student foundation allowance, an increase of \$0 from the \$7,672 received in the 2008-2009 fiscal year. The State assessed a \$154 per pupil reduction, in order to maintain the per pupil allocation and to attempt to minimize the effect on the classroom, the District elected to apply the \$154 per pupil reduction to the categorical funds received from the State – i.e. Section 31A – At Risk. Although the threat of pro-ration or reduction of this initial allocation and other categorical grants was under consideration throughout the fiscal year, the State was able to maintain the level of payment that was originally authorized at the beginning of the school year. However, the economic difficulties faced by Michigan are expected to continue through at least the next five years and funding for education is uncertain at this point.
- Future funding levels for education are expected to reflect the long-range outlook for the state economy. A number of factors have been identified that will affect the overall financial health of the state as well as that of the residents of Michigan. Continuing population loss, decreasing birth rates, erosion of the automobile and other manufacturing bases and the resulting decline in tax revenue will have a direct effect on the District's ability to provide a quality education for the students of the Lansing School District. The Citizens Research Council is predicting a 14.3% decline over the next ten years in the population within the 5 to 17 year age range that makes up the student base across the state. This alarming downward trend and the resulting expected decrease in funding levels will make it difficult to continue existing educational programs and to plan and implement innovative programs to meet the needs of the students of the District.
- A number of initiatives which were introduced by the District's Superintendent, Dr. T. C. Wallace Jr., and subsequently were approved by the board, that are designed to provide direction and focus for achievement in the District were implemented during the 2007-2008 fiscal year. Based on the theme of Accountability-Attitude-Achievement, eleven goals have been set that established the school system's educational priorities for 2008-09 and future years. In addition to goals that directly relate to the education of students, other goals call for the development of a comprehensive strategic plan to cover the period 2008-2012 and the establishment and maintenance of sound fiscal management and accountability systems that maximize financial resources through performance-based systems. The development of a comprehensive five-year financial plan will enable administrators to ensure that financial resources are used in the most efficient and effective manner. As a result of these initiatives, the District has achieved "AYP" (Adequate Yearly Progress) status for the 2009-2010 school year. Twenty nine of the District's thirty one schools made AYP as required under the No Child Left Behind act (NCLB).

- ➤ The District adopted a modified zero based budgeting process in the 2008-2009 fiscal year in which the building budget allocations are based on a per pupil amount. The modified zero based budgeting process is a three year process, fiscal year 2009-2010 marked the second phase of the process, fiscal year 2010-2011 will mark the third and final phase of the process. Through the modified zero based budgeting process, the budget is driven directly by student enrollment and student programming needs.
- The District had established a Community Advisory Task Force Committee for Right Sizing. The Task Force was comprised of parents, staff, community business leaders, political leaders and many others. This Task Force has been established to address issues such as declining enrollment, inadequate funding, rising costs and aging buildings. The primary goal of the task force is to identify how to make the best use of its buildings in the midst of declining enrollment and other financial pressures. A recommended course of action was presented by the Task Force. The District has received the report from the Community Advisory Task Force Committee for Right Sizing and has considered its recommendation. In an effort to right size, the District has closed two of its elementary schools and its centralized vocational program at Hill. The District has also put forth a sinking fund ballot proposal on the November 2, 2010 annual elections to support the infrastructure needs of the School District.
- In fiscal year 2008-2009, the District established a Promise Zone under the Michigan Promise Zone Authority Act, Act 549 of 2008. The intent of the Promise Zone is to increase the economic viability of our community, to encourage families to move into the District, providing scholarship to its students resulting in an increase in students for the District, and to encourage continued education for our youth. It is anticipated that the District will experience an increase in enrollment and ultimately the community will experience a significant increase in the number of our children that will elect to further their education by attending college. Additionally, it is anticipated that the number of our children that typically do not attend college due to financial constraints, will now be able to attend college with the assistance of the Promise Zone scholarship. The Promise Zone Authority has established its bylaws, criteria, etc., for the award of a Promise Zone Scholarship and has submitted the plan for approval by the Michigan Department of Treasury.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, please contact the Chief Financial Officer's office, Lansing School District, 519 W. Kalamazoo Street, Lansing, Michigan, 48933.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2010

Net change in fund balances total governmental funds	\$ (4,972,288)
Amounts reported for governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures, in the statement of activities these costs are allocated over their estimated useful lives as depreciation.	
Depreciation expense	(4,393,358)
Capital outlay Accrued interest on bonds is recorded in the statement of activities when incurred; it is recorded in governmental funds when it is paid: Accrued interest payable beginning of the year	2,341,451 1,240,006
Accrued interest payable end of the year	(421,080)
The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, where as these amounts are deferred and amortized in the statement of activities. The effect of these differences is the treatment of long-term debt and related items as follows:	
Payments on debt	6,002,276
Amortization expense	(34,516)
Amortized premium	192,887
Revenue is recorded on the accrual method in the statement of activities; in the governmental funds it is recorded on the modified accrual method and not considered available:	
Deferred revenue, beginning of the year	(334,395)
Deferred revenue, end of the year	256,832
Compensated absences are reported on the accrual method in the statement of activities, and recorded as an expenditure when financial resources are used in the governmental funds:	
Accrued compensated absences beginning of the year	4,835,140
Accrued compensated absences end of the year	(4,890,402)
Change in net assets of governmental activities	\$ (177,447)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Lansing School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Lansing School District (the "District") is governed by the Lansing School District Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by the accounting principles generally accepted in the United States of America. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters. In addition, the District's reporting entity does not contain any component units as defined in Governmental Accounting Standards Board Statement Nos. 14 and 39.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. The government-wide financial statements categorize primary activities as either governmental or business type. All of the District's activities are classified as governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges paid by recipients who purchase, use or directly benefit from goods or services by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State Foundation Aid, certain revenue from the intermediate school district and other unrestricted items are not included as program revenues but instead as *general revenues*.

In the government-wide statement of net assets, the governmental activities column (a) is presented on a consolidated basis, (b) and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements (Continued)

The District first utilizes restricted resources to finance qualifying activities.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues and other revenues.) The statement of activities reduces gross expenses by related program revenues and operating grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (property taxes, state sources, intermediate district sources, interest income and other revenues.)

The District does not allocate indirect costs.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Funds - Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use and balances of the school district's expendable financial resources and the related current liabilities are accounted for through governmental funds.

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The 2003 capital projects fund accounts for the receipt of debt proceeds and the acquisition of fixed assets or construction of major capital projects.

The capital projects funds include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the school district has complied with the applicable provisions of \$1351a of the Revised School Code.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements (Concluded)

The following is a summary of the revenue and expenditures for the 2003 bond:

Revenue	\$ 4,896,297
Expenditures and transfers	\$ 71,095,622

The above revenue figure does not include original bond proceeds of \$67,554,949.

Other Non-major Funds

The *special revenue funds* account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects). The District accounts for its food service and athletic activities in the special revenue funds.

The *debt service funds* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *capital projects funds* account for the receipt of debt proceeds and transfers from the general fund for the acquisition of fixed assets or construction of major capital projects.

Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the District under the terms of a formal trust agreement. Fiduciary funds are not included in the government–wide statements.

The *private purpose trust fund* is accounted for using the accrual method of accounting. Private purpose trust funds account for assets where both the principal and interest may be spent. These funds are not reported on the District financial statements.

The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for assets that the District holds for others in an agency capacity (primarily student activities).

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation

Accrual Method

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board.

Modified Accrual Method

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period unless there are special circumstances. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, state and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2010, the foundation allowance was based on pupil membership counts taken in February and September of 2009.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Concluded)

State Revenue (Concluded)

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills on Principal Residence Exemption (PRE) property and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by Non-PRE property taxes (formerly known as Non-Homestead) which may be levied at a rate of up to 18 mills as well as 6 mills for Commercial Personal Property Tax. The State revenue is recognized during the foundation period and is funded through payments from October 2009 to August 2010. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain governmental funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year are recorded as deferred revenue. Other categorical funding is recognized when the appropriation is received.

D. Other Accounting Policies

1. Cash and equivalents include amounts in demand deposits and certificates of deposit

The District reports its investments in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and No. 40, *Deposits and Investment Risk Disclosures*. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the district intends to hold the investment until maturity. Accordingly, investments in banker acceptances and commercial paper are recorded at amortized cost.

State statutes authorize the District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies (Continued)

2. Property taxes

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are levied and become a lien as of July 1 and December 1 and are due upon receipt of the billing by the taxpayer and become a lien on the first day of the levy year. The actual due dates are September 14 and February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended June 30, 2010, the District levied the following amounts per \$1,000 of assessed valuation:

Fund	Mills
General fund:	
Non-Principal Residence Exemption (PRE)	17.9262
Commercial Personal Property	5.9262
Debt service fund:	
PRE, Non-PRE, Commercial Personal Property	2.0189

3. Inventories and prepaid expenditures

Inventories are valued at the lower of cost (first-in, first-out) or market. Inventories consisting of expendable supplies held for consumption, are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenditures.

4. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies (Continued)

5. Capital assets

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Buildings and additions	50 years
Furniture and other equipment	5 - 20 years
Land improvements	20 years
Transportation equipment	7 years

The District's capitalization policy is to capitalize individual amounts exceeding \$5,000. Group purchases are analyzed on a case-by-case basis.

6. Compensated absences

The District's contracts generally provide for granting vacation and sick leave with pay. The current and long-term liability for compensated absences is reported on the government-wide financial statements. A liability for these amounts, including related benefits, is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations or retirements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

D. Other Accounting Policies (Concluded)

7. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net assets. Bond premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Use of estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general, special revenue and debt service funds. Encumbrance accounting is employed in governmental funds. Significant encumbrances outstanding at year end, if any, are reported as reservations of fund balance because they will be re-appropriated in the subsequent fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Concluded)

- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to July 1, the budget is legally adopted by School Board resolution pursuant to the Uniform Budgeting and Accounting Act (1968 PA 2). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, for the general fund are noted in the required supplementary information section.
- 4. The Deputy Superintendent of Business is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the School Board.
- 5. Formal budgetary integration is employed as a management control device during the year for the general, special revenue and debt service funds.
- 6. The budget was amended during the year with supplemental appropriations, the last one approved prior to June 30, 2010. The District does not consider these amendments to be significant.

NOTE 3 - DEPOSITS AND INVESTMENTS

As of June 30, 2010 the District had no investments.

Interest rate risk. In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs). The District does not allow direct investment in commercial paper or corporate bonds.

NOTE 3 - DEPOSITS AND INVESTMENTS (Concluded)

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk - deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2010, \$25,632,132 of the District's bank balance of \$27,144,311 was exposed to custodial credit risk because it was uninsured and uncollateralized. The carrying amount of all deposits is \$24,220,694.

Custodial credit risk - investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business.

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk.

The above amounts as previously reported in Note 3:

Deposits - including fiduciar	y funds of \$228,685	\$ 24,220,694
-------------------------------	----------------------	---------------

The above amounts are reported in the financial statements as follows:

Cash - private purpose trust fund	\$ 4,000
Cash - agency fund	224,685
Cash - district-wide	20,901,040
Cash - restricted	3,090,969

\$ 24,220,694

NOTE 4 - CAPITAL ASSETS

Depreciation for the fiscal year ended June 30, 2010 amounted to \$4,393,358.

.

NOTE 4 - CAPITAL ASSETS (Concluded)

Depreciation expense was charged to programs of the District as follows:

Instruction	\$ 1,945,207
Support service	282,399
Food service	33,854
Athletics	512,482
Unallocated	1,619,416
	\$ 4,393,358

NOTE 5 - LONG-TERM DEBT

The District issues general obligation bonds to provide funds for the acquisition, construction and improvement of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District.

The following is a summary of governmental long-term obligations for the District for the year ended June 30, 2010:

	Self-insured workers compensation plan		Termination benefits and compensated absences	enefits and mpensated Notes		Total
Balance, July 1, 2009	\$	452,698	\$ 4,382,442	\$ 1,322,354	\$ 68,995,484	\$ 75,152,978
Additions		271,990	-	-	-	271,990
Deletions		-	216,728	354,108	5,841,055	6,411,891
Balance, June 30, 2010		724,688	4,165,714	968,246	63,154,429	69,013,077
Less current portion			1,996,129	373,275	3,823,818	6,193,222
Total due after one year	\$	724,688	\$ 2,169,585	\$ 594,971	\$ 59,330,611	\$ 62,819,855

NOTE 5 - LONG-TERM DEBT (Continued):

Bonds payable at June 30, 2010 is comprised of the following issues:

2006 general obligation refunding bonds due in annual installments of \$55,000 to \$5,065,000 through May 1 2023, with interest at 4.00%	\$ 7,760,000
2003 general obligation and refunding bonds due in annual installments of \$2,480,000 to \$4,800,000 through May 1, 2022 with interest at 3.550% to 5.000%	46,280,000
2002 energy conservation improvement bonds due in annual installments of \$125,000 to \$130,000 through May 1, 2012 with interest at 3.500% to 3.750%	255,000
2002 QZAB bond due in one installment of \$5,000,000 in September 2016 with interest of 0%	5,000,000
Plus: premium on 2003 bond issuance (net)	2,829,084
Less: deferred loss on refundings (net)	(302,548)
Total general obligation debt	61,821,536
1998 Limited obligation bonds (Durant bonds) due in annual installments of \$423,817 to \$465,105 through May 2013 with interest at 4.76%	1,332,893
Note payable - Phone system - due in quarterly installments of \$85,260 to \$109,444 from September 1, 2007 to January 1, 2014, with an interest rate of 5.31%	968,246
Accrued retirement benefits and worker's compensation:	
Obligation for compensated absences and termination benefits	4,165,714
Obligation for worker's compensation claims	724,688
Total debt	\$ 69,013,077

The Durant bonds, including interest, were issued in anticipation of payment to the District as appropriated and to be appropriated by the State of Michigan under Section 11g(3) of Act 94 (State Aid payments). The District has pledged and assigned to the bondholder all rights to these State Aid payments as security for the Bond.

NOTE 5 - LONG-TERM DEBT (Continued)

In prior years, the District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account, assets and liabilities for the defeased bonds are not included in the District's financial statements. At June 30, 2010, \$7,520,000 of bonds outstanding are considered defeased.

The annual requirements to amortize bonded debt and notes payable outstanding as of June 30, 2010, including interest payments of \$19,203,195 are as follows: At June 30, 2010, \$3,881,656 is available to service the general obligation debt.

Year ending June 30,	Principal	Interest	Amounts payable
2011	\$ 4,197,092	\$ 2,592,315	\$ 6,789,407
2012	4,367,452	2,416,753	6,784,205
2013	4,191,595	2,237,001	6,428,596
2014	3,650,000	2,061,476	5,711,476
2015	3,775,000	1,931,900	5,706,900
2016-2020	26,375,000	6,663,550	33,038,550
2021-2023	15,040,000	1,300,200	16,340,200
Drawing on hand inner a	61,596,139	19,203,195	80,799,334
Premium on bond issuance Deferred amount on bond refunding Compensated absences and	2,829,084 (302,548)	-	2,829,084 (302,548)
termination benefits	4,165,714	-	4,165,714
Workers' compensation claims	724,688		724,688
	\$ 69,013,077	\$ 19,203,195	\$ 88,216,272

NOTE 6 - INTERFUND RECEIVABLES AND PAYABLES

Interfund payable and receivable balances at June 30, 2010 are as follows:

Receivabl	e fund		Payable fu	nd	
Other nonmajor funds	\$	2,775,949	2003 Capital projects	\$	1,896,811
			General fund		146,032
			Other nonmajor funds		733,106
	\$	2,775,949		\$	2,775,949

The outstanding balances between funds results mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All amounts are expected to be repaid within the year.

NOTE 7 - EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN

<u>Plan Description</u> - The District contributes to the statewide Michigan Public School Employees' Retirement System (MPSERS), a cost sharing multiple-employer state-wide defined benefit public employee retirement plan governed by the State of Michigan. The MPSERS provides retirement survivor and disability benefits and postretirement benefits for health, dental and vision for substantially all employees of the District. The MPSERS was established by Public Act 136 of 1945 and operated under the provisions of Public Act 300 of 1980, as amended. The MPSERS issues a publicly available financial report that includes financial statements and required supplementary information for MPSERS. That report may be obtained by writing to Michigan Public School Employees Retirement System, P.O. Box 30171, Lansing, Michigan 48909-7671 or by calling (800) 381-5111.

Funding Policy - Member Investment Plan (MIP) members enrolled in MIP prior to January 1, 1990 contribute a permanently fixed rate of 3.9% of gross wages. The MIP contribution rate was 4.0% from January 1, 1987, the effective date of the MIP, until January 1, 1990 when it was reduced to 3.9%. Members first hired January 1, 1990 or later and returning members who did not work between January 1, 1987 through December 31, 1989 contribute at the following graduated permanently fixed contribution rate: 3% of the first \$5,000; 3.6% of \$5,001 through \$15,000; 4.3% of all wages over \$15,000. Members joining the system on or after July 1, 2008 contribute at the following graduated rate: 3% of the first \$5,000 and 6.4% of all wages over \$15,000.

NOTE 7 - EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN (Concluded)

Basic plan members make no contributions. For a limited period ending December 31, 1992, an active Basic plan member could enroll in the MIP by paying the contributions that would have been made had enrollment occurred initially on January 1, 1987 or on the date of hire, plus interest. MIP contributions at the rate of 3.9% of gross wages begin at enrollment. Actuarial rate interest is posted to member accounts on July 1st on all MIP monies on deposit for 12 months. If a member leaves MPSERS service and no pension is payable, the member's accumulated contribution plus interest, if any, are refundable.

The District is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. The rates for the year ended June 30, 2010 were 16.54% of payroll through September 30, 2009 and 16.94% effective October 1, 2009 through June 30, 2010. The contribution requirements of plan members and the District are established and may be amended by the MPSERS Board of Trustees. The District contributions to MPSERS for the year ended June 30, 2010, 2009 and 2008 were \$15,796,371, \$15,773,020 and \$15,856,507, respectively, and were equal to the required contribution for those years.

<u>Other Post-employment Benefits</u> - Retirees have the option of health coverage, which is funded on a cash disbursement basis by the employers. The System has contracted to provide the comprehensive group medical, hearing, dental and vision coverages for retirees and beneficiaries. A significant portion of the premiums is paid by the System with the balance deducted from the monthly pension.

The District is not responsible for the payment of retirement benefits and post-employment benefits which are the responsibility of the State of Michigan.

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees' and natural disasters. The District participates in two distinct pools of educational institutions within the State of Michigan for self-insuring property and casualty and workers' disability compensation. The pools are considered public entity risk pools. The District pays annual premiums under a retrospectively rated policy to the pools for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The workers' compensation pool and the property casualty pool maintain reinsurance for claims generally in excess of \$500,000 for each occurrence with the overall maximum coverage varying depending on the specific type coverage of reinsurance.

The District continues to carry commercial insurance for other risks of loss, including employee health and accident insurance. No settlements have occurred in excess of coverage for June 30, 2009 or any of the prior three years.

NOTE 9 - CONTINGENCIES

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

NOTE 10 - TRANSFERS

The general fund transferred \$1,418,760 to the athletic fund, \$557,200 to the debt service funds, and \$22,400 to the capital projects fund, the food service funds transferred \$572,073 to general fund, the 1998 and 2003 refunding debt service funds transferred \$263,482 to the 2006 refunding debt service fund to close out those funds, and the athletic fund transferred \$105,136 to the general fund.

The transfers to the athletics fund was to fund operations, the transfer to the debt service fund is for future retirement of debt, the transfers to the general fund were to reimburse the general fund for current year indirect and other approved costs.

NOTE 11 - COMMITMENTS

The District has active capital projects outstanding at June 30, 2010. Approximately \$1,355,000 is committed and recorded as fund balance in the 2003 capital projects fund.

NOTE 12 - THE AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA)

During the year ended June 30, 2010, the District recorded revenue of \$4,102,636 of unrestricted ARRA funds to off-set a shortage in the State of Michigan foundation funding. It is uncertain the amount the District will receive in unrestricted ARRA funds in the future.

NOTE 13 - FUTURE ACCOUNTING STANDARDS

Effective for the year ending June 30, 2011, the District will be required to implement a new accounting standard that revises the classifications of fund balance and the definition of special revenue funds. As a result, athletic activities will be included in the general fund rather than a separate fund.

1998 School Improvement Bonds (Durant Bonds)

This bond, including the interest hereon, is issued in anticipation of payments appropriated and to be appropriated by the State under Section 11g(3) of Act 94 to the School District (the "State Aid Payments"). The School District hereby pledges and assigns to the Authority all of its rights to and in such State Aid Payments as security for this bond and the State Aid Payments which are hereby pledged shall be subject to a statutory lien in favor of the Authority as authorized by Act 94. This bond is a self-liquidating bond and is not a general obligation of the School District and does not constitute an indebtedness of the School District within any constitutional or statutory limitation, and is payable both as to principal and interest, solely from such State Aid Payments. The School District, as requested by the Authority, hereby irrevocably authorizes the payment of the State Aid Payments directly to the Authority's Depository.
