The Administrative Performance Review instrument is designed to focus on job responsibilities, leadership qualities and individual performance objectives. It is intended to provide a mechanism for feedback and communication between individual employees and their supervisors to encourage personal growth and skill development. The Administrative Performance Review will also be used to determine annual administrator effectiveness ratings.

Part One: Job Responsibilities

The employee will satisfactorily meet the responsibilities listed in his/her job summary and will be assessed by the evaluator at the end of the evaluation period.

Part Two: Objectives

Using information from a variety of sources, the employee and the evaluator will mutually develop objectives for the employee at the initial evaluation meeting. These objectives will be aligned with the district and school building improvement plans. An objective is required in each of these areas for all administrators:

- Departmental Goals
- District Goals Related to Student Growth
- Professional Growth

Part Three: Year-End Evaluation

Individual performance shall be the majority factor in making the decision about administrator effectiveness and shall consist of, but is not limited to evidence of student growth, which shall be used in assessing an administrator's individual performance in a year-end evaluation as shown in the chart below.

Job responsibilities, leadership qualities, and performance on school improvement and professional growth objectives are additional factors that will be used to determine administrator effectiveness.
