Problem Solving with Behavior Data

This handout is designed to support the review of Synergy data to develop precise problem statements, set goals based on behavioral data, and begin generation some solutions based on data.

Precise Problem Statement

Use the Synergy data to develop a Precise Problem Statement. Organize your Precise Problem Statement using this chart.

Drill Down Questions	Drill Down Data
What is the problem behavior?	
Where is the problem behavior happening?	
Who is engaged in the problem behavior?	
When and how often is the problem behavior likely to occur?	
Why is the problem sustaining?	

Using Behavior Data to Develop Solutions

Goal:

Prevent	Teach	Respond
