

PENGUIN POST

IB UPDATE

TAKING ACTION AT HOME

Taking action is an integral part of the IB curriculum. Taking action is a way to apply new learning and make positive changes to our world.

If your child "takes action" at home, please let your child's teacher know. Each classroom has an "action cycle" display with all the wonderful things our learners are doing to help our world.

INQUIRERS

During the month of December, Mrs. Kolar has been reading little snippets of information about different holidays that are celebrated during this time of the year.

After, she poses an inquiry question about that particular holiday. It's amazing to see all the students who research and find the answer. Way to go Penguins!

TAKING ACTION

Luna saw a person standing outside in the cold, holding a sign and knew that she wanted to help. She decided to start a campaign at Post Oak to raise money for people who are homeless. Throughout this campaign, parents, students, and staff contributed and helped her raise 54.35.

After doing some research to learn about different places that help the homeless; Luna decided to donate the money to the F.O.R.T program.

This program helps students and families in the Lansing School District. Luna would like to use her donation to help buy warm clothes to help others "stay warm in the winter."
