

CM CLARIFICATION #5
Posted By David J. Beckering 12/8/25

- The National Time and Signal representative contacted Beckering Construction on December 8, 2025 and he informed me that the Electrical Bidders could use an allowance of \$20,000.00 for the fire alarm design and material on the Averill Elementary project. This allowance does not include installation labor, which must be covered in the overall Electrical Package.
