

Everett New Tech High

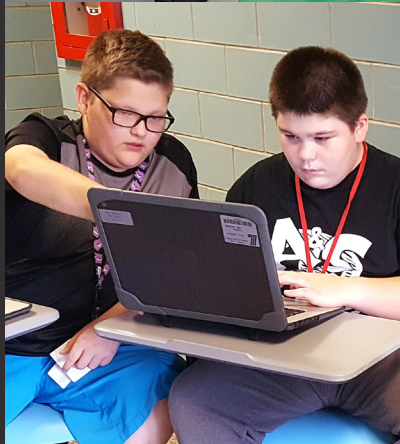

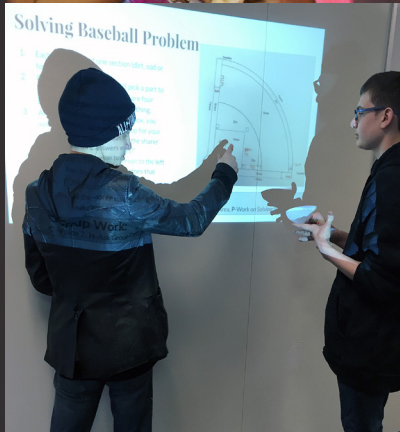

Everett New Tech High is a Magnet program and school-within-a-school that uses technology to facilitate project-based learning for its students.

Students can start their New Tech pathway at Averill (grades PreK-3), progress to Attwood (grades 4-6) and graduate from Everett having stayed in New Tech accredited schools for their entirety of their school career.

It is through this integration of projects across curriculum and across grades, that Everett New Tech High nurtures and educates the whole child.

We are about:
Teaching that Engages, Culture that Empowers, Technology that Enables, and Outcomes that matter.

Grades: 7-12

What is New Tech Network?

New Tech Network is a non-profit organization that transforms schools into innovative learning environments. It employs project-based learning and seamless technology to produce life long learners who will easily adapt to the ever-changing career landscape of the future.

Everett has joined a network that has demonstrated its success in preparing students to excel after high school. New Tech Network Schools with graduating classes have quadrupled over the last four years. NTN students graduate high school at a rate 9% higher than the national average and persist in 4-year college at rate of 92%.

What Makes Everett New Tech High Special?

- **TEACHING THAT ENGAGES:** Project-Based Learning taught through integrated classes (combined subjects).
- **CULTURE THAT EMPOWERS:** School-wide culture and community of Trust, Respect, and Responsibility.
- **OUTCOMES THAT MATTER:** School-wide Learning Outcomes of Collaboration, Written and Oral Communication, Agency (Growth & Responsibility), Knowledge & Thinking.
- **TECHNOLOGY THAT ENABLES:** Tools of technology - all students have laptops and share a common Learning Management System ("Echo").
